

Upcoming Programs for 2023

With the new year right around the corner, there is a lot in the works for the youth of Juab County! Here is a list of the new animal programs coming up!:

~ Livestock Study Nights

- Want to learn about Livestock? Come join us for Livestock Study Nights starting in January and offered bi-weekly at the extension office. Youth will learn all about livestock in many different sectors. Get registered for 4-H and come participate in January!
- All study nights will be held from 5-6ish pm at the Extension Office in Nephi in the clubhouse.
- There may be a few exceptions to the time frame as we get closer because arrangements are being made for one or two “in-the-field” type activities where we will travel to do hands-on type stuff. If you have any questions contact Hailey at (435) 623-3450 or hailey.holden@usu.edu
- For more information, see Juab Extension social media pages for tentative dates and info.

~ Horse Study Nights

- Love horses but don't own one? Want to broaden your knowledge about our equine friends? Come join us for Horse Study nights starting in January and being held bi-weekly at the extension office. Get registered for 4-H and come participate in January!
- All study nights will be held from 5-6ish pm at the Extension Office in Nephi in the clubhouse.
- There may be a few exceptions to the time frame as we get closer because arrangements are being made for one or two “in-the-field” type activities where we will travel to do hands-on type stuff. If you have any questions contact Hailey at (435) 623-3450 or hailey.holden@usu.edu
- For more information, see Juab Extension social media pages for tentative dates and info.

~ Quad County Small animal Club

- Interested in Rabbits, Poultry, or Game birds? Come join the virtual small animal club along with youth from Millard, Sevier, Utah, and Juab Counties!
- Learn from Industry experts, backyard enthusiasts, and amazing volunteers!
- Get registered for 4-H and if you have any questions contact Hailey at (435) 623-3450 or hailey.holden@usu.edu
- For more information, see Juab Extension social media pages for tentative dates and info.
