

# Wings & Water

## Wetlands Education Program

### VOLUNTEERS NEEDED

Become a **Naturalist Guide** and help educate and inspire youth about the natural environment!

Lead hands-on, outdoor field trips for 4th grade students to discover the wetlands at **The Nature Conservancy's Great Salt Lake Shorelands Preserve** and the **USU Wetland Discovery Point in Kaysville**.

As a Naturalist Guide, you will educate students about topics including water, soil, and plant and animal adaptations to wetland ecosystems.

Field trips run in September, October, April, and May on Tuesdays, Wednesdays, and Thursdays.

Benefits of becoming a Naturalist Guide:

- Teach in a beautiful location
- Increase your understanding of wetlands
- In-depth training from natural resource and environmental education professionals
- Raise awareness of wetland ecosystems
- Meet other Naturalist Guides

For more info and to volunteer, contact Hope Braithwaite.
