

High Growth Rate = >24 inches/year

Botanical Name	Common Name	Cultivars
† <i>Acer saccharinum</i>	silver maple	'Blair' (strong branching), 'Laciniatum', 'Silver Queen' (leaves silver beneath), 'Wieri' (drooping branches)
† <i>Ailanthus altissima</i>	tree-of-heaven, ailanthus	'Erythrocarpa' (red fruit), 'Metro' (male, fruit; tight crown), 'Pendulifolia' (long leaves hang down)
† <i>Catalpa speciosa</i>	northern or western catalpa	None available
† <i>Elaeagnus angustifolia</i>	Russian-olive	'Red King' (rust red fruits)
† <i>Melia azedarach</i>	Chinaberry	'Umbraculiformis' (domed shape; multi-stemmed; called "Texas Umbrellatree")
† <i>Populus candicans</i>	balm-of-Gilead	'Aurora' (leaves variegated when young)
† <i>Populus nigra</i> 'Italica'	Lombardy poplar	'Italica' (typical narrow crown), 'Theves' (wider)
† <i>Populus X canadensis</i>	Carolina poplar	'Eugenei' (columnar), 'Noreaster' (some canker resistance), 'Robusta' (small oval)
† <i>Quercus palustris</i>	pin oak	'Crownright' (upright habit), 'Sovereign' (lower branches do not sweep down)
† <i>Salix babylonica</i>	weeping willow	'Crispa' (spiral leaves)
† <i>Salix matsudana</i>	Hankow willow (‘Globe Navajo’, etc.)	'Golden Curls' (hybrid; twisting, golden stems), 'Navajo' (round crown; troublesome), 'Pendula'
† <i>Ulmus americana</i>	American or white elm	Some claimed to be disease resistant; not proven long-term — 'Liberty', 'Washington'
† <i>Ulmus pumila</i>	Siberian elm	'Chinkota' (very cold-hardy), 'Pendula'
❖† <i>Acer negundo</i>	boxelder, ash-leaved or Manitoba maple	'Baron' (seedless), 'Sensation' (red fall color), several with variegated foliage
❖ <i>Populus angustifolia</i>	narrowleaf cottonwood	None available; naturally forms hybrids, such as lanceleaf cottonwood, <i>P. X acuminata</i>
❖ <i>Populus balsamifera</i>	balsam poplar	Some hybrids
❖ <i>Populus fremontii</i>	Fremont cottonwood	None available
❖ <i>Populus trichocarpa</i>	black cottonwood	None available
❖ <i>Salix amygdaloides</i>	peachleaf willow	None known
<i>Albizia julibrissin</i>	mimosa, silk-tree, albizia	'E.H. Wilson' and 'Rosea' (hardy to -15°F)
<i>Alnus glutinosa</i>	European or common alder	'Aurea', 'Laciniata', 'Fastigiata' (narrow Lombardy poplar)
<i>Betula nigra</i>	river birch	'Heritage' (attractive bark; superior selection)
<i>Celtis occidentalis</i>	hackberry, common hackberry	'Chicagoland' (single leader), 'Prairie Pride' (very good form), 'Windy City' (good form)
<i>Fraxinus pennsylvanica</i>	green ash	'Marshall's Seedless', 'Patmore' (seedless), 'Summit' (upright, pyramidal)
<i>Gleditsia triacanthos</i>	honeylocust	All thornless; 'Imperial' (few pods), 'Moraine' (fruitless; very good tree), 'Shademaster' (dark green; few pods), 'Skyline' (good fall color)
<i>Larix decidua</i>	European larch	'Fastigiata' (very narrow), 'Pendula'
<i>Larix kaempferi</i>	Japanese larch	'Blue Rabbit' (narrow pyramidal with blue-green foliage), 'Dervaes' (horizontal branches, drooping branchlets), 'Pendula'
<i>Liquidambar styraciflua</i>	sweetgum, American sweetgum	'Burgundy' (deep red fall color), 'Festival' (narrower crown; yellow to pink fall color), 'Rotundiloba' (fruitless; rounded leaf lobes)
<i>Liriodendron tulipifera</i>	yellow-poplar, tuliptree, tulip-poplar	'Compactum' (medium size), 'Fastigiatum' (20' wide), 'Tortuosum' (curled leaves and stems)
<i>Metasequoia glyptostroboides</i>	Dawn redwood	'National' (narrow pyramidal), 'Sheridan Spire' (upright)

<i>Morus alba</i>	white mulberry	'Hampton' (fruitless; wide crown), 'Mapleleaf' (large, maple-like leaves; fruitless), 'Pendula' (weeping, twisted; fruiting), 'Pyramidalis'
<i>Morus rubra</i>	red mulberry	None available
<i>Platanus occidentalis</i>	American sycamore or planetree	'Howard' (uncommon; new foliage yellow)
<i>Platanus X acerifolia</i>	London planetree	'Bloodgood', 'Columbia', 'Liberty' (all anthracnose resistant)
<i>Populus alba</i>	white poplar	'Pyramidalis', 'Richardii' (upper leaf surfaces white)
<i>Populus deltoides</i>	eastern cottonwood	'Platte', 'Noreaster' (both canker resistant), 'Siouxland' (canker susceptible), many hybrids
<i>Salix fragilis</i>	crack willow	Unknown
<i>Salix nigra</i>	black willow	None known
<i>Zelkova serrata</i>	Japanese zelkova	'Autumn Glow' (purple fall color), 'Green Vase' (vase-shaped; orange fall color; fast growth), 'Variegata', 'Village Green' (good growth rate)

† = Very rarely should be planted

❖ = Native to Utah

Medium Growth Rate = 12 - 24 inches/year

Botanical Name	Common Name	Cultivars
† <i>Fraxinus excelsior</i>	European ash	'Aurea', 'Globosa' (30' tall), 'Pendula', 'Rancho' (30' tall; yellow fall color)
† <i>Sorbus aucuparia</i>	European mountain-ash or rowan	Numerous; 'Asplenifolia' (deeply divided leaves), 'Cardinal Royal' (fast growth, upright)
† <i>Tamarix ramosissima</i>	tamarisk, salt-cedar	None available
❖† <i>Populus tremuloides</i>	quaking or trembling aspen	None available
❖ <i>Acer glabrum</i>	Rocky Mountain maple	None available
❖ <i>Acer grandidentatum</i>	canyon or bigtooth maple	'Autumn Glow' (upright tree form; good fall color)
❖ <i>Alnus tenuifolia</i>	thinleaf or mountain alder	None available
❖ <i>Celtis reticulata</i>	netleaf hackberry	None available
❖ <i>Cercis occidentalis</i>	California or western redbud	None known
❖ <i>Cercocarpus ledifolius</i>	curlleaf mountain-mahogany	None available
❖ <i>Chilopsis linearis</i>	desert willow	None available
❖ <i>Cornus sericea</i>	red-osier or red-stemmed dogwood	'Cardinal' (bright red stems), 'Flaviramea' (yellow stems), 'Isanti' (bright red stems; compact), 'Kelseyi' (compact)
❖ <i>Fraxinus velutina</i>	velvet or Modesto ash	'Modesto' (glabrous leaves)
❖ <i>Juniperus osteosperma</i>	Utah Juniper	None
❖ <i>Juniperus scopulorum</i>	Rocky Mountain Juniper	Numerous; many are blue; 'Pathfinder' (narrow pyramidal), 'Wichita Blue' (tall pyramidal)
❖ <i>Picea pungens</i>	blue or Colorado blue spruce	Numerous; 'Argentea' (silver-white needles), 'Glauca Globosa', 'Glauca Pendula', 'Hoopsii' (dense pyramidal), 'Mission Blue' (very blue)

❖ <i>Pinus contorta</i>	lodgepole pine	None available; plant local sources
❖ <i>Pinus ponderosa</i>	ponderosa pine	None available
❖ <i>Prunus virginiana</i>	common chokecherry	'Schubert' or 'Canada Red' (pyramidal form; red-green foliage)
❖ <i>Pseudotsuga menziesii</i>	Douglas-fir	'Fastigiata', 'Fletcheri' (6' dwarf), var. <i>glauca</i> (blue-green needles), 'Pendula'
❖ <i>Robinia neomexicana</i>	New Mexico locust	None available
❖ <i>Sambucus cerulea</i>	blue elder	None available
<i>Acer campestre</i>	hedge maple	'Compactum' (shrubby), 'Fastigiatum', 'Queen Elizabeth' (small to medium size)
<i>Acer ginnala</i>	Amur or Ginnala maple	'Compactum' (shrubby), 'Flame' (shrub to small tree; red fruits; deep red fall color)
<i>Acer nigrum</i>	black maple	'Greencolumn' (upright, columnar; often called <i>A. saccharum</i>)
<i>Acer platanoides</i>	Norway maple	Numerous; 'Columnare', 'Erectum' (narrow), 'Crimson King' (maroon), 'Emerald Queen' (dark green), 'Schwedleri' (starts purple, turns green)
<i>Acer pseudoplatanus</i>	sycamore maple	'Atropurpureum' (leaves purple underneath), 'Brilliantissimum' (leaves start pink to cream)
<i>Acer rubrum</i>	red maple	Numerous; 'Autumn Blaze' (orange-red fall color), 'Autumn Flame' (red fall color, small leaves), 'Columnare', 'Red Sunset' (pyramidal)
<i>Acer saccharum</i>	sugar maple	Numerous; 'Bonfire' (good red fall color), 'Globosum', 'Green Mountain' (heat tolerant)
<i>Acer tataricum</i>	Tatarian maple	Rubrum' (deep red fall color)
<i>Aesculus californica</i>	California buckeye	None available
<i>Aesculus glabra</i>	Ohio buckeye	var. <i>nana</i> (dwarf, shrubby)
<i>Aesculus hippocastanum</i>	horsechestnut	'Baumannii' (double white flowers; no fruit)
<i>Aesculus X carnea</i>	red horsechestnut	'Briotii' (flowers deeper red in 10" groups), 'O'Neill' (better red flowers in 10"-12" groups)
<i>Betula papyrifera</i>	paper birch	None available
<i>Betula pendula</i>	European white birch	'Dalecarlica' (cut leaves; weeping form), 'Fastigiata', 'Purpurea'
<i>Calocedrus (Libocedrus)decurrens</i>	incense- cedar	'Aureo-Variegata' (yellow-variegated), some columnar forms available
<i>Castanea mollissima</i>	Chinese chestnut	Some hybrids available
<i>Catalpa bignonioides</i>	southern catalpa	'Aurea', 'Nana' (see below)
<i>Cedrus deodara</i>	Deodar cedar	'Kashmir' (cold hardy to -5°F), 'Shalimar' (cold hardy to -15°F; good blue-green color)
<i>Cercidiphyllum japonicum</i>	katsuratree	'Pendula' (graceful, weeping, blue-green mound)
<i>Cercis canadensis</i>	eastern redbud, Judas-tree	var. <i>alba</i> (white flowers), 'Forest Pansy' (purple leaves), 'Silver Cloud' (white variegated leaves)
<i>Cladrastis lutea</i>	yellowwood	'Rosea' (pink flowers)
<i>Cornus alternifolia</i>	pagoda or alternate-leaf dogwood	'Argentea' (leaves with white variegations; shrubby)
<i>Corylus americana</i>	American hazelnut	None known
<i>Corylus colurna</i>	Turkish filbert, Turkish hazel	None available
<i>Corylus cornuta</i>	beaked hazelnut	None available
<i>Cotinus coggyria</i>	common smoketree, smokebush	'Flame' (good orange-red fall color), 'Royal Purple' (dark purple mature leaves), 'Pendulus'
<i>Cotinus obovatus</i>	American smoketree, chittamwood	'Grace' (red leaves; pink flowers), 'Red Leaf'
<i>Crataegus crusgalli</i>	cockspur hawthorn	var. <i>inermis</i> (thornless), 'Hooks' (fewer thorns)
<i>Crataegus laevigata</i>	English hawthorn	'Crimson Cloud' (blight resistant), 'Paul's Scarlet' (red, doubled flowers; very showy)

<i>Crataegus phaenopyrum</i>	Washington hawthorn	'Clark' (heavy fruiting), 'Fastigiata', 'Vaughn' (hybrid with <i>C. crusgalli</i> ; heavy fruiting)
<i>Crataegus viridis</i>	green hawthorn	'Winter King' (vase-shaped; red fruit attractive in winter; excellent tree)
<i>Crataegus X lavalleyi</i>	Lavalle hawthorn	Hybrid of <i>C. stipulacea</i> and <i>C. crusgalli</i>
<i>Cupressus arizonica</i>	Arizona cypress	'Gareei' (silver-blue), 'Pyramidalis' (narrow, conical; blue foliage)
<i>Cupressus sempervirens</i>	Italian cypress	'Glauca' (blue-green; columnar), 'Roylei' (bright green; stiff-upright), 'Stricta' (narrow, columnar; green), 'Swane's Gold' (yellow-green; narrow)
<i>Eriobotrya japonica</i>	loquat	'Golden Nugget' (large; abundant fruit), 'Variegata' (white variegations)
<i>Fraxinus americana</i>	white ash	'Autumn Applause' (tight, oval crown), 'Autumn Purple' (seedless), 'Rosehill' (seedless)
<i>Fraxinus quadrangulata</i>	blue ash	'True Blue' (very good for high pH soils, leaves stay dark green)
<i>Ginkgo biloba</i>	ginkgo, Maidenhair tree	All males; 'Autumn Gold' (good fall color), 'Fastigiata', 'Pendula', 'Santa Cruz' (spreading)
<i>Gymnocladus dioicus</i>	Kentucky coffeetree	'Variegata' (white variegations on green leaves)
<i>Juglans cinerea</i>	butternut	None available
<i>Juglans nigra</i>	black walnut	'Laciniata' (dissected leaflets)
<i>Juglans regia</i>	English or Persian walnut	'Carpathian' (very cold hardy), 'Hansen' (good fruit production), 'Laciniata', 'Pendula'
<i>Juniperus chinensis</i>	Chinese juniper	Numerous, all forms, sizes, and colors; includes 'Hetzii' (15' tall) and 'Pfitzeriana' (wide shrub)
<i>Juniperus virginiana</i>	eastern redcedar	Numerous; 'Glauca', 'Globosa', 'Manhattan Blue' (compact pyramidal), 'Pendula'
<i>Koelreuteria paniculata</i>	goldenraintree	'Fastigiata', 'September' (flowers late summer; not as cold-hardy as others)
<i>Laburnum X watereri</i>	goldenchain tree, Waterer laburnum	'Alford's Weeping', 'Aureum' (golden yellow leaves), 'Pendulum', 'Vossii' (dense crown; 2' long inflorescences)
<i>Lagerstroemia indica</i>	crapemyrtle	Numerous; 'Acoma' (white flowers; semi-dwarf), 'Hopi' (pink flowers; semi-dwarf), 'Yuma' (lavender flowers; taller, upright)
<i>Maclura pomifera</i>	Osage-orange	var. <i>inermis</i> (thornless)
<i>Magnolia acuminata</i>	cucumbertree, cucumber magnolia	'Golden Glow' and 'Yellow Bird' (good yellow flowers); 'Variegata' (yellow leaf blotches)
<i>Magnolia grandiflora</i>	southern magnolia	Numerous; 'Bracken's Brown Beauty' (good, dense crown), 'Majestic Beauty' (large leaves)
<i>Magnolia X soulangiana</i>	saucer magnolia	'Brozzonii' (large white flowers open late), 'Lennei' (dark purple-pink petals; shrubby), 'San Jose' (large, pink-purple flowers; fast grower)
<i>Malus pumila</i>	apple	Many choices available
<i>Malus spp.</i>	crabapple	Numerous cultivars available
<i>Phellodendron amurense</i>	Amur corktree	'Macho' (fruitless; good branching habit), 'Shademaster' (fruitless)
<i>Picea abies</i>	Norway spruce	Numerous; 'Nidiformis' (called "bird's nest spruce"; tight, spreading, shrubby), 'Pendula' (name for cultivars with weeping branchlets)
<i>Pinus densiflora</i>	Japanese red pine	'Globosa' (round shrub to 10'-15'), 'Oculus-draconis' (yellow banded leaves), 'Pendula', 'Umbraculifera'
<i>Pinus halepensis</i>	Aleppo pine	None available
<i>Pinus monticola</i>	western white pine	None available

<i>Pinus mugo</i>	Mugo pine	'Compacta' (dense, round, 4' tall), 'Gnom' (15" tall by 3' wide), 'Mops' (3' tall by 3' wide), var. <i>mugo</i> (8' tall), var. <i>pumilio</i> (prostrate, 10' wide)
<i>Pinus nigra</i>	Austrian pine	'Hornibrookiana' (very compact dwarf, 6' wide and 2' high), 'Pyramidalis'
<i>Pinus strobiformis</i>	southwestern white pine	None available; plant cold-hardy sources
<i>Pinus strobus</i>	eastern white pine	'Compacta', 'Contorta' (irregular crown; twisted branches), 'Fastigiata', var. <i>glauca</i> , 'Pendula' (weeping crown)
<i>Pinus sylvestris</i>	Scotch or Scots pine	'Argentea' (silvery leaves), 'Aurea', 'Fastigiata', 'French Blue' (leaves bluegreen in winter)
<i>Pinus thunbergii</i>	Japanese black pine	'Compacta', 'Globosa', 'Iseli' (gold variegated; small), 'Majestic Beauty' (large tree; dark green)
<i>Pinus wallichiana</i>	Himalayan or Bhutan pine	'Oculus-draconis' (leaves with cream-colored bands)
<i>Pistacia chinensis</i>	Chinese pistache	'Keith Davey' (male; no fruit)
<i>Prunus armeniaca</i>	apricot	'Manchurian' (20' tall; round crown; pink flowers), many others available
<i>Prunus avium</i>	sweet cherry	'Plena' (double white flowers) mazzard
<i>Prunus cerasifera</i>	purpleleaf, cherry, or Myrobalan plum	'Newport' (dark purple leaves; more cold hardy), 'Thundercloud' (less cold hardy; pink flowers)
<i>Prunus cerasus</i>	sour cherry	var. <i>umbraculifera</i> (compact; round habit), var. <i>persiciflora</i> (pink flowers), many others
<i>Prunus domestica</i>	common plum	Numerous
<i>Prunus padus</i>	European birdcherry, May Day tree	'Abertii' (30' pyramidal), var. <i>commutate</i> (1/2" flowers), 'Summer Glow' (purple leaves)
<i>Prunus persica</i>	peach	Numerous; 'Alba Plena' (double white flowers), 'Early Double Red, Pink, or White' (early blooming), 'Royal Red Leaf' (red-purple leaves)
<i>Prunus sargentii</i>	Sargent cherry	'Columnaris', 'Rancho' (very narrow crown), also many hybrids
<i>Prunus serrulata</i>	Japanese flowering or Oriental cherry	'Amanogawa' (narrow upright form), 'Kwanzan' (double flowers; often grafted at 4'-6')
<i>Prunus subhirtella</i>	Higan cherry	var. <i>pendula</i> , var. <i>autumnalis</i> (double flowers), 'Yae-shidare-higan' (weeping; double flowers)
<i>Prunus X yedoensis</i>	Yoshino cherry	'Afterglow' (pink flowers; 25'x25'), 'Ivensii' (white flowers; weeping)
<i>Pyrus calleryana</i>	Callery pear	'Aristocrat' (better branch attachment), 'Bradford' (poor branch attachment), 'Chanticleer' (narrower crown, more cold hardy), 'Redspire' (pyramidal)
<i>Pyrus communis</i>	common pear	Rarely planted as an ornamental
<i>Pyrus ussuriensis</i>	Ussurian pear	'Prairie Gem' (good fall color; glossy leaves)
<i>Quercus acutissima</i>	sawtooth oak	'Gobbler' (abundant acorns)
<i>Quercus alba</i>	white oak	None available
<i>Quercus bicolor</i>	swamp white oak	None available
<i>Quercus cerris</i>	turkey oak	'Argenteo-variegata' (white blotches on leaf edges)
<i>Quercus imbricaria</i>	shingle or laurel oak	None available
<i>Quercus macrocarpa</i>	bur or mossycup oak	None available
<i>Quercus muehlenbergii</i>	chinkapin oak	None available
<i>Quercus robur</i>	English oak	'Atropurpurea', 'Fastigiata' (upright, narrow), 'Pendula', 'Westminster Globe' (large, round)
<i>Quercus rubra</i>	northern red oak	'Aurea' (new leaves yellow, becoming green)
<i>Quercus shumardii</i>	Shumard oak	None available
<i>Robinia pseudoacacia</i>	black locust	'Purple Robe' (medium height; dark pink flowers), 'Pyramidalis' (no spines on twigs)
<i>Robinia X ambigua</i>	Idaho flowering locust	'Idaho' (pink flowers; tough)
<i>Sequoiadendron giganteum</i>	giant sequoia	'Pendulum' (main stem curves and twists)

<i>Sophora japonica</i>	Japanese pagodatree, scholar-tree	'Columnaris', 'Fastigiata', 'Pendula' (rarely flowers), 'Regent' (fast growth), 'Variegata'
<i>Sorbus alnifolia</i>	Korean mountain-ash	'Redbird' (persistent red fruit), some upright forms
<i>Sorbus americana</i>	American mountain-ash	None available
<i>Syringa reticulata</i>	Japanese tree lilac	'Chantilly Lace' (leaf edges yellow), 'Ivory Silk' (flowers young, heavy), 'Regent' (vigorous; upright), 'Summer Snow' (heavy flowering)
<i>Taxodium distichum</i>	baldcypress	'Monarch of Illinois' (wide, large crown), 'Pendens' (pyramidal; branchlets droop), 'Shawnee Brave' (narrow crown)
<i>Thuja occidentalis</i>	northern white-cedar, eastern arborvitae	Numerous; cold hardy include 'Emerald' and 'Nigra' (narrow pyramidal), 'Techny' (broad pyramidal)
<i>Thuja plicata</i>	western redcedar	'Canadian Gold' (gold leaves), 'Fastigiata', 'Zebrina' (yellow variegated foliage; gets 60' tall)
<i>Tilia americana</i>	American basswood, American linden	'Fastigiata', 'Lincoln' (slender-upright), 'Redmond' (dense pyramidal crown)
<i>Tilia cordata</i>	littleleaf European linden	'Chancellor' (fastigate when young, later pyramidal), 'Greenspire' (tough; common; upright), 'Prestige' (fast growing; strong form)
<i>Tilia tomentosa</i>	silver linden	'Fastigiata' ('Erecta'), 'Green Mountain' (rapid growing; tough), 'Sterling' (wide, pyramidal)
<i>Tilia X euchlora</i>	Crimean linden	'Laurelhurst' (broad, pyramidal crown)
<i>Ulmus parvifolia</i>	lacebark or Chinese elm	'Emerald Isle' (broad crown; good bark), 'Emerald Vase' (upright-spreading crown)
<i>Zizyphus jujuba</i>	Chinese date	'Lang' (fruits young), 'Li' (2" fruits)

† = Very rarely should be planted

❖ = Native to Utah

Low Growth Rate = <12 inches/year

Botanical Name	Common Name	Cultivars
❖ <i>Abies concolor</i>	white or concolor fir	'Candicans' (long, blue needles; narrow crown), 'Compacta', 'Violacea' (silver-blue needles)
❖ <i>Abies lasiocarpa</i>	subalpine or alpine fir	None
❖ <i>Amelanchier alnifolia</i>	Saskatoon, western serviceberry	'Regent' (compact, shrubby), 'Success' (heavy fruit)
❖ <i>Amelanchier utahensis</i>	Utah serviceberry	None available
❖ <i>Betula occidentalis</i>	water or river birch	None available
❖ <i>Cowania mexicana</i>	cliffrose, quininebush	None available
❖ <i>Fraxinus anomala</i>	single leaf ash or dwarf ash	None available
❖ <i>Ostrya knowltonii</i>	Knowlton hophornbeam	None available
❖ <i>Picea engelmannii</i>	Engelmann spruce	None available
❖ <i>Pinus aristata</i> (<i>longaeva</i>)	bristlecone pine	None available
❖ <i>Pinus edulis</i>	pinyon, Colorado pinyon	None available
❖ <i>Pinus flexilis</i>	limber pine	'Columnaris', 'Glauca Pendula', 'Nana', 'Pendula', 'Vandewolf's Pyramid' (upright; fast growth; blue)

❖Pinus monophylla	singleleaf pinyon	None available
❖Prosopis juliflora	honey mesquite	None available
❖Ptelea angustifolia	common or western hoptree, wafer-ash	None available
❖Quercus gambelii	Gambel, scrub, or Rocky Mountain white oak	None readily available
❖Quercus turbinella	shrub live oak	None available
❖Quercus undulata	wavyleaf oak	None available
❖Sorbus scopulina	Greene mountain-ash	None available
❖Yucca brevifolia	Joshua-tree	None available
Acer buergeranum	trident maple	Dwarf and variegated cultivars available
Acer griseum	paperbark maple	Some hybrids available
Acer palmatum	Japanese maple	Numerous; var. <i>atropurpureum</i> and 'Bloodgood' 'Crimson Queen' (red, deeply lobed leaves), 'Viridis' (green leaves)(reddish-purple leaves),
Acer truncatum	purpleblow or Shantung maple	Norway maple hybrids 'Norwegian Sunset' (upright-oval; heat tolerant), 'Pacific Sunset' (upright-spreading; red in fall)
Amelanchier arborea	downy serviceberry	'Autumn Sunset' (good orange fall color), 'Springtime' (good flowers and fall color; 12' tall)
Carpinus betulus	European hornbeam	'Asplenifolia' (deeply toothed leaves), 'Columnaris', 'Fastigiata' (20'-30' wide), 'Globosa', 'Pendula', 'Purpurea', 'Variegata'
Carpinus caroliniana	American hornbeam, musclewood	'Pyramidalis' (similar to species)
Catalpa bignonioides 'Nana'	umbrella catalpa	'Nana' (sterile, grafted dwarf)
Cedrus atlantica	Atlas Cedar	'Argentea' (silver-blue), 'Aurea' (yellowish), 'Fastigiata', 'Glauca', 'Glauca Pendula'
Cedrus libani	cedar of Lebanon	'Argentea' (silver-blue), var. <i>brevifolia</i> (smaller than species), 'Pendula', 'Sargentii' (5' dwarf), var. <i>stenocoma</i> (more cold hardy; stiff)
Chamaecyparis obtusa	Hinoki falsecypress	'Crippsii' (broad, yellow-green), 'Filicoides' (shrubby; pendulous twigs), 'Gracilis' (dark green, narrow pyramid), 'Nana' (small shrub)
Chionanthus virginicus	fringetree, white fringetree	'Floyd' (upright habit; mostly male, little fruit)
Cornus florida	flowering dogwood	Numerous; 'Cherokee Chief' (red flowers), 'Cloud 9' (cold-hardy), var. <i>rubra</i> (pink-red flowers), 'World's Fair' (cold hardy; drought resistant)
Cornus kousa	Kousa dogwood	Numerous; var. <i>chinensis</i> (larger flowers and tree size), 'Dwarf Pink' (small tree; pink flowers), 'Fanfare' (upright form; very cold-hardy)
Cornus mas	corneliancherry dogwood	'Alba' (white fruit), 'Flava' (yellow fruit), 'Golden Glory' (heavy flowering), 'Nana', 'Variegata'
Fagus grandifolia	American beech	None available
Fagus sylvatica	European beech	'Asplenifolia' (cut leaves), 'Pendula', 'Purpurea Tricolor' (purple variegated leaves)
Ilex opaca	American holly	'Amy' (large leaves; abundant fruit), 'Goldie' (yellow fruit), 'Wyetta' (pyramidal)
Juglans major	Arizona walnut	None available
Magnolia kobus	Kobus magnolia	var. <i>borealis</i> (large, pyramidal crown), 'Wada's Memory' (hybrid; large flowers; fast growing)
Magnolia stellata	star magnolia	'Centennial' (doubled flowers, pinkish), 'Dawn' (pink stripe on petal), 'Royal Star' (superior)

<i>Magnolia X loebneri</i>	Loebner magnolia	'Ballerina' (many petals; fragrant), 'Merrill' (medium height; heavy flowering), 'Spring Snow' (superior cultivar; medium height)
<i>Ostrya virginiana</i>	eastern hophornbeam, ironwood	None available
<i>Picea glauca</i>	white or Blackhills spruce	'Conica' or 'Dwarf Alberta' (very small, tight; tiny needles; common in Utah), 'Densata' (also called "Blackhills spruce"; tall, narrow; nice form)
<i>Picea omorika</i>	Serbian spruce	'Expansa' (wide shrub), 'Nana' (round or conical; 10' high), 'Pendula' (tall, narrow; branches droop)
<i>Pinus bungeana</i>	lacebark pine	None available
<i>Pinus parviflora</i>	Japanese white pine	'Bergman' (wide, rounded shrub), 'Brevifolia' (narrow crown; short needles), 'Glauca'
<i>Pistacia vera</i>	pistachio	Unknown
<i>Thuja (Platyclusus) orientalis</i>	Oriental arborvitae	Numerous; 'Aurea Nana' (5'; round), 'Baker' (bright green; likes heat), 'Compacta' (small, pyramidal)

† = Very rarely should be planted

❖ = Native to Utah
