INSTRUCTIONS for JUNIORS and SENIORS

Youth participating in junior and senior 4-H shooting sports activities must have completed or be currently enrolled in a Hunter Education Course. Call the CVPSR at 753-4600 to find out the starting date of the next Hunter Education Course. Junior and senior participants pay a one-time fee of \$16 (4-H enrollment is an additional \$4.00) to cover the cost of the range fees including paper targets, and range access.

Junior and senior 4-H participants **must provide their own ammunition** for .22 rifle and shotgun (20 or 12 gauge) shooting. Approximately 300 rounds of .22 ammunition and 100 rounds of shotgun ammunition (if youth plans to shoot shotgun) will be needed. Juniors and seniors **must also provide safety glasses and hearing protection**. If students forget their safety equipment it may be purchased. See prices listed above.

Handling of Firearms and Archery Equipment

Junior and senior 4-H participants are encouraged to bring their own archery equipment and firearms. **Arrows must be transported in a quiver.** Loose arrows are not allowed and arrows must remain in the quiver until students are on the range and instructed to remove the arrows. **All firearms must be transported unloaded and should be carried in a gun case.** Firearms are to remain unloaded and in their cases until youth are on the range and instructed to remove the rifle, shotgun, or muzzleloader.

When firearms are not in a case and they are being handled or moved the following rules apply. Firearm actions should remain open and the guns unloaded until youth are on the range firing line and have been instructed to load the firearms. When firearms are not in a case and they are being moved they should be held with both hands, pointed upward, and positioned at a height so the muzzles of all firearms are above the heads of all people present. When not being fired, all firearms should be in a case or setting in a gun rack.

SAFETY MESSAGE: Proper Operation of Firearms and Archery Equipment

The firearms and archery equipment that youth bring to the CVPSR should be in proper working order. All shooting sports equipment should be sighted in before the initial starting date. The loading, firing, and ejection mechanisms of firearms should operate correctly to prevent dangerous ammunition jams and the delays caused by malfunctions. Archery equipment, specifically compound bows, should be properly maintained and adjusted. **If a youth's equipment malfunctions, he or she will not be allowed to use the equipment, but she or he may borrow a 4-H firearm or bow to participate in that week's activities.**
