

Davis County Extension Service Volunteer Opportunities 2009

Davis County Master Gardeners are required to volunteer 25 hours each year within an approved Extension-based project to maintain an active Master Gardener title. In order to receive information concerning activities and volunteer projects, at least one of the 25 required volunteer hours will need to be recorded at the USU Extension Office by May 1st. (For Master Gardeners who are currently enrolled in the Beginning class or Advanced Trainings, these 25 hours are waived.)

Phone Diagnostics: (Answering Phones/Returning Calls)

Two people per shift

Monday, Wednesday, Friday mornings 9:00 am - 12:00 noon

March 23, 2009 - October 9, 2009

Stacie has sign-up schedule - please call her at 451-3403.

Diagnostic Clinic: (Walk-ins, Specimen Analysis, Phones)

Two people per shift

Tuesday Afternoons 1:00 pm - 4:00 pm

May 5, 2009 - October 6, 2009

Stacie has sign-up schedule - please call her at 451-3403.

Just a reminder - We need consistent help with our diagnostic program throughout the summer. In the past, we've generally had Master Gardeners come in at the beginning of the season and then again at the end of the season when everybody needs to have their hours completed. But our office generally has the most phone calls and visitors during the *middle* of the season.

Beginning Master Gardeners are required to volunteer 10 hours in Diagnostics. Master Gardeners currently enrolled in the Advanced Trainings are required to volunteer 15 hours. In order to maintain our Diagnostic program for the entire season, we would like to suggest that, if possible, each Master Gardener schedule a time once each month to help with Diagnostics. That way, we can maintain and staff this wonderful, much-needed public assistance program!!

Utah House/Utah Botanical Center:
