250 North Main
Richfield, UT 84701-2158

Office: 435.893.0474
Cell: 435.979.6343
FAX: 435.893.0493

Brief Bio: Kim has been with USU Extension since October 1991. His first assignment was as the Extension Agent in Rich County, a single agent county. In July 1997, he accepted his current assignment as Southwest Area Animal Scientist/State Sheep Specialist. His area assignment covers the eleven counties in the southwest corner of the state, stretching from Juab and Sanpete counties in the north to the Arizona state line. He and his wife Conna have five children and live in Monroe, Utah. His interests include woodworking (especially making furniture), hunting, and landscaping. He has various species of animals and a small orchard on his small farm in Monroe. His area of expertise is genetic selection in large animals.
