

Utah State University

TOOELE COUNTY EXTENSION

MASTER GARDENER PROGRAM APPLICATION

The purpose of the USU Extension Master Gardener program is to familiarize community minded individuals with a broad assortment of horticulture related subjects such as soils, ornamental plants, fruit and vegetables in order to allow them to become more effective volunteers. To become a Master Gardener, 40 hours of community service with the organization must be completed. This would involve serving with other already certified Master Gardeners in assisting with a variety of local USU sponsored or affiliated events. Master Gardeners form close friendships and participate in many social activities together.

If you do not wish to participate in the Master Gardener organization itself, you are still welcome to participate in the class.
