
Bugs Don't Bug Me!

This Coloring Book Belongs To:

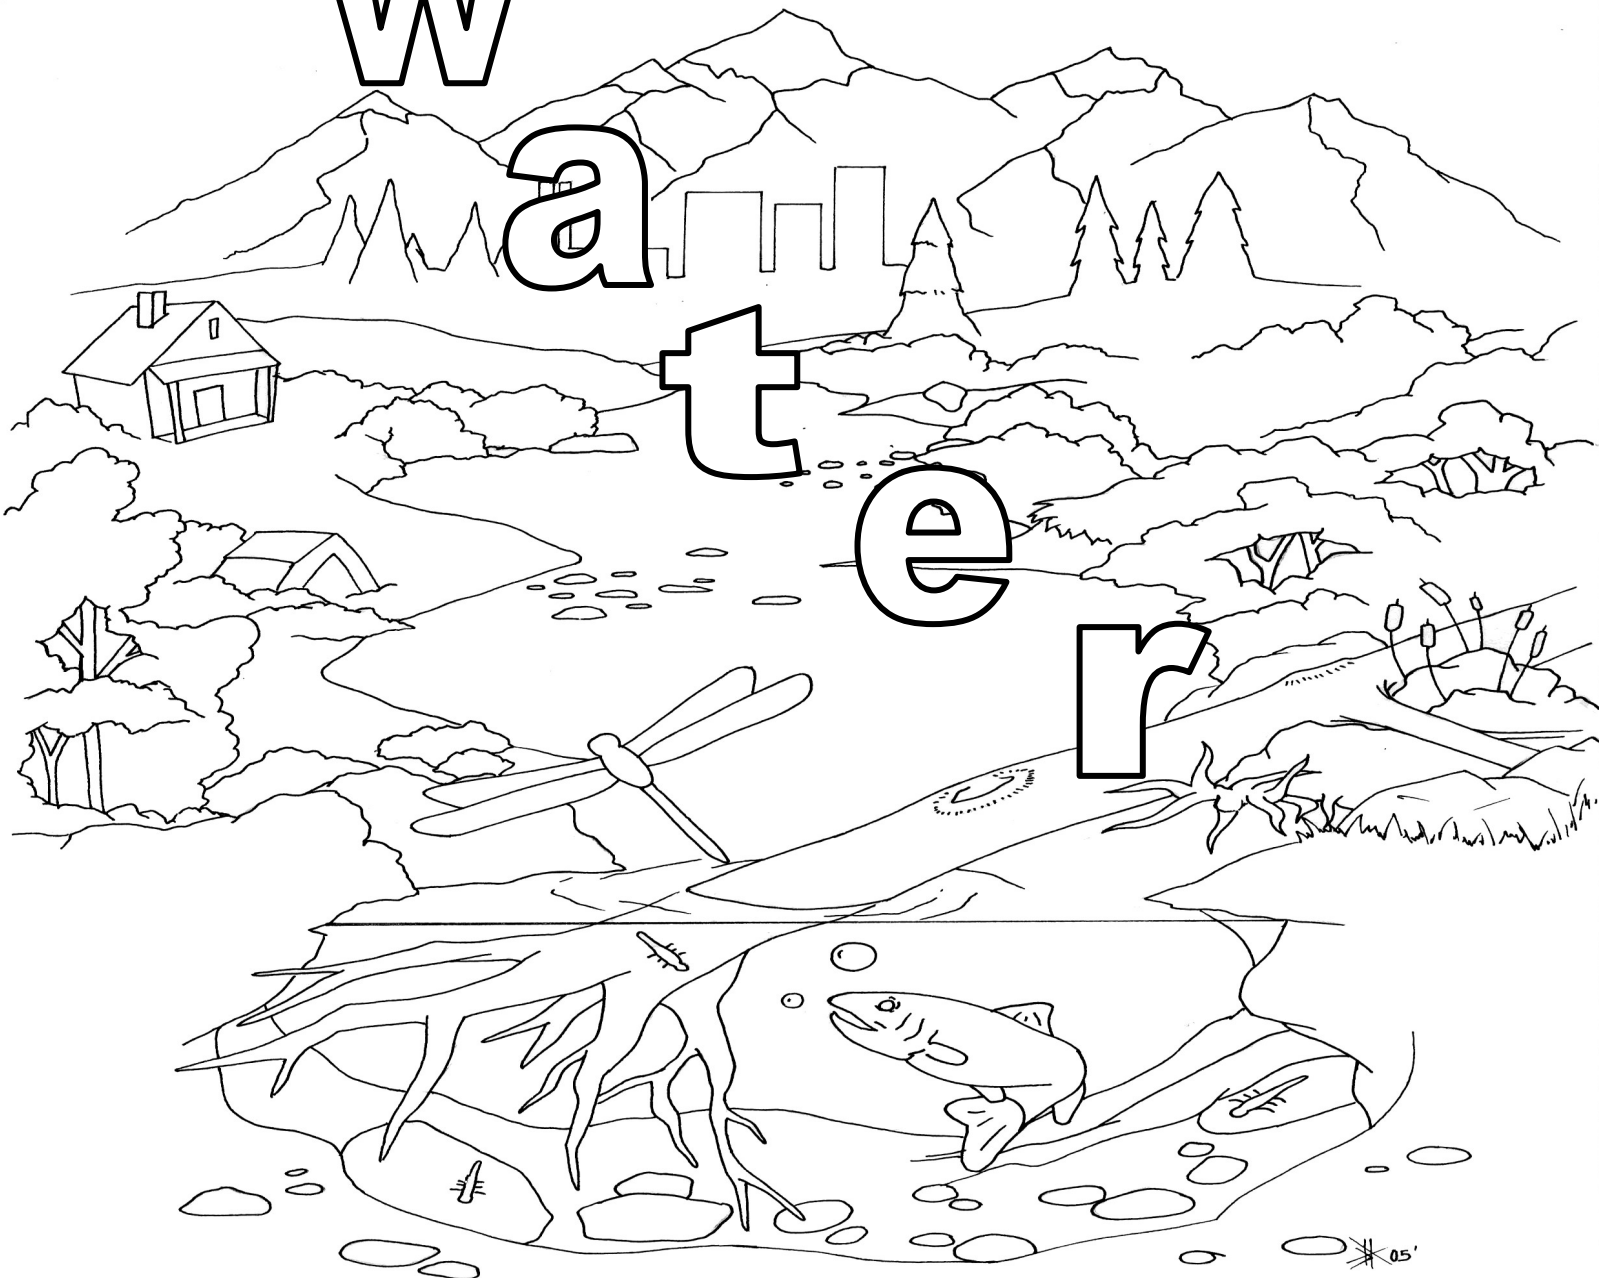

For more information about Water Quality Extension educational programs contact us at 797-2580 or online at www.extension.usu.edu/waterquality

Utah State University is committed to providing an environment free from harassment and other forms of illegal discrimination based on race, color, religion, sex, national origin, age (40 and older), disability, and veteran's status. USU's policy also prohibits discrimination on the basis of sexual orientation in employment and academic related practices and decisions. Utah State University employees and students cannot, because of race, color, religion, sex, national origin, age, disability, or veteran's status, refuse to hire; discharge; promote; demote; terminate; discriminate in compensation; or discriminate regarding terms, privileges, or conditions of employment, against any person otherwise qualified. Employees and students also cannot discriminate in the classroom, residence halls, or in on/off campus, USU-sponsored events and activities. This publication is issued in furtherance of Cooperative Extension work, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture, Noelle E. Cockett, Vice President for Extension and Agriculture, Utah State University. NR/WQ/Edu/2005-01

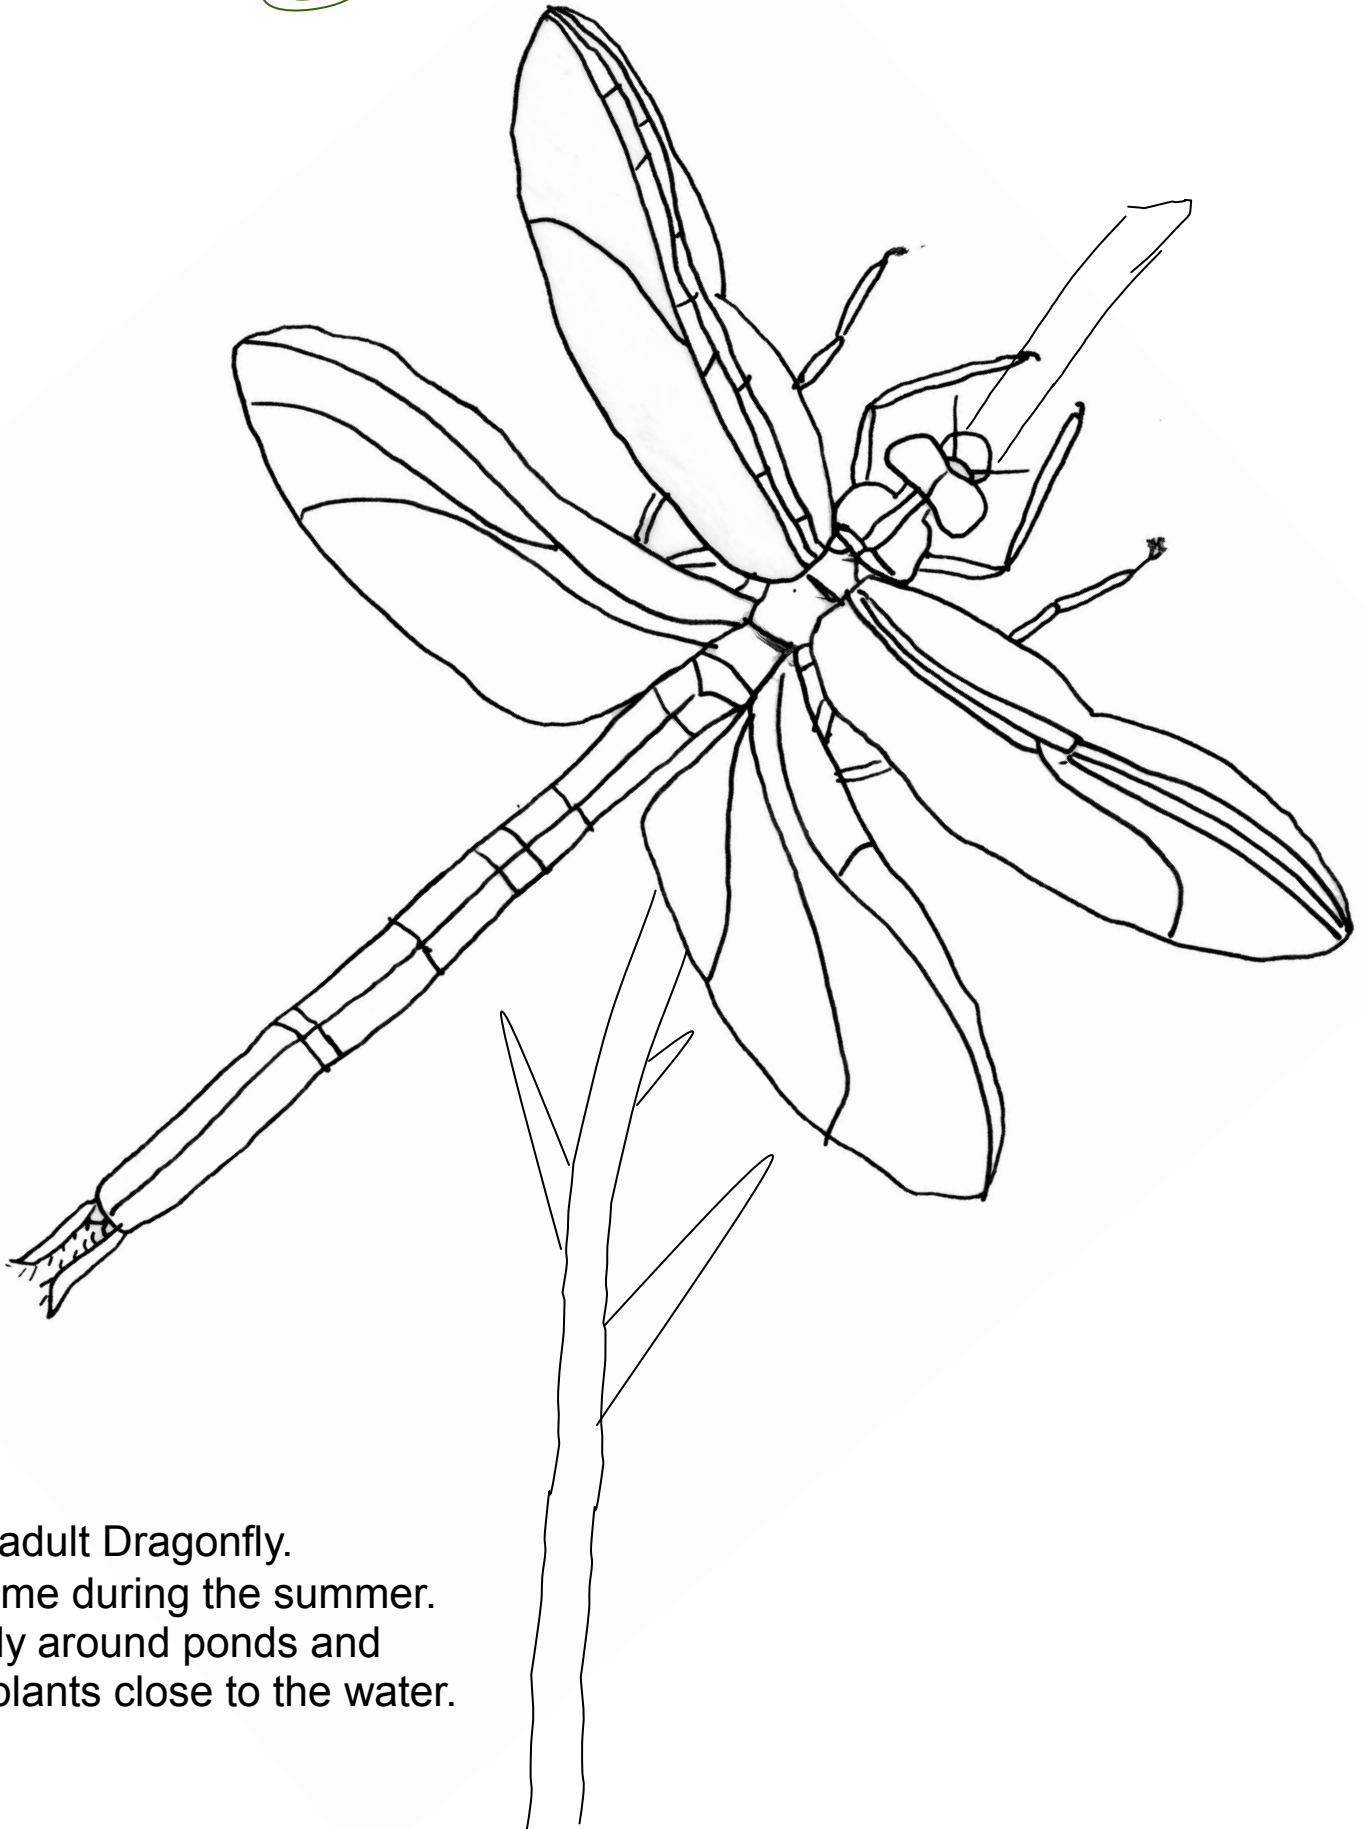

All of the bugs in this coloring book have one thing in common.

For part of their life they live in the

Dragonfly

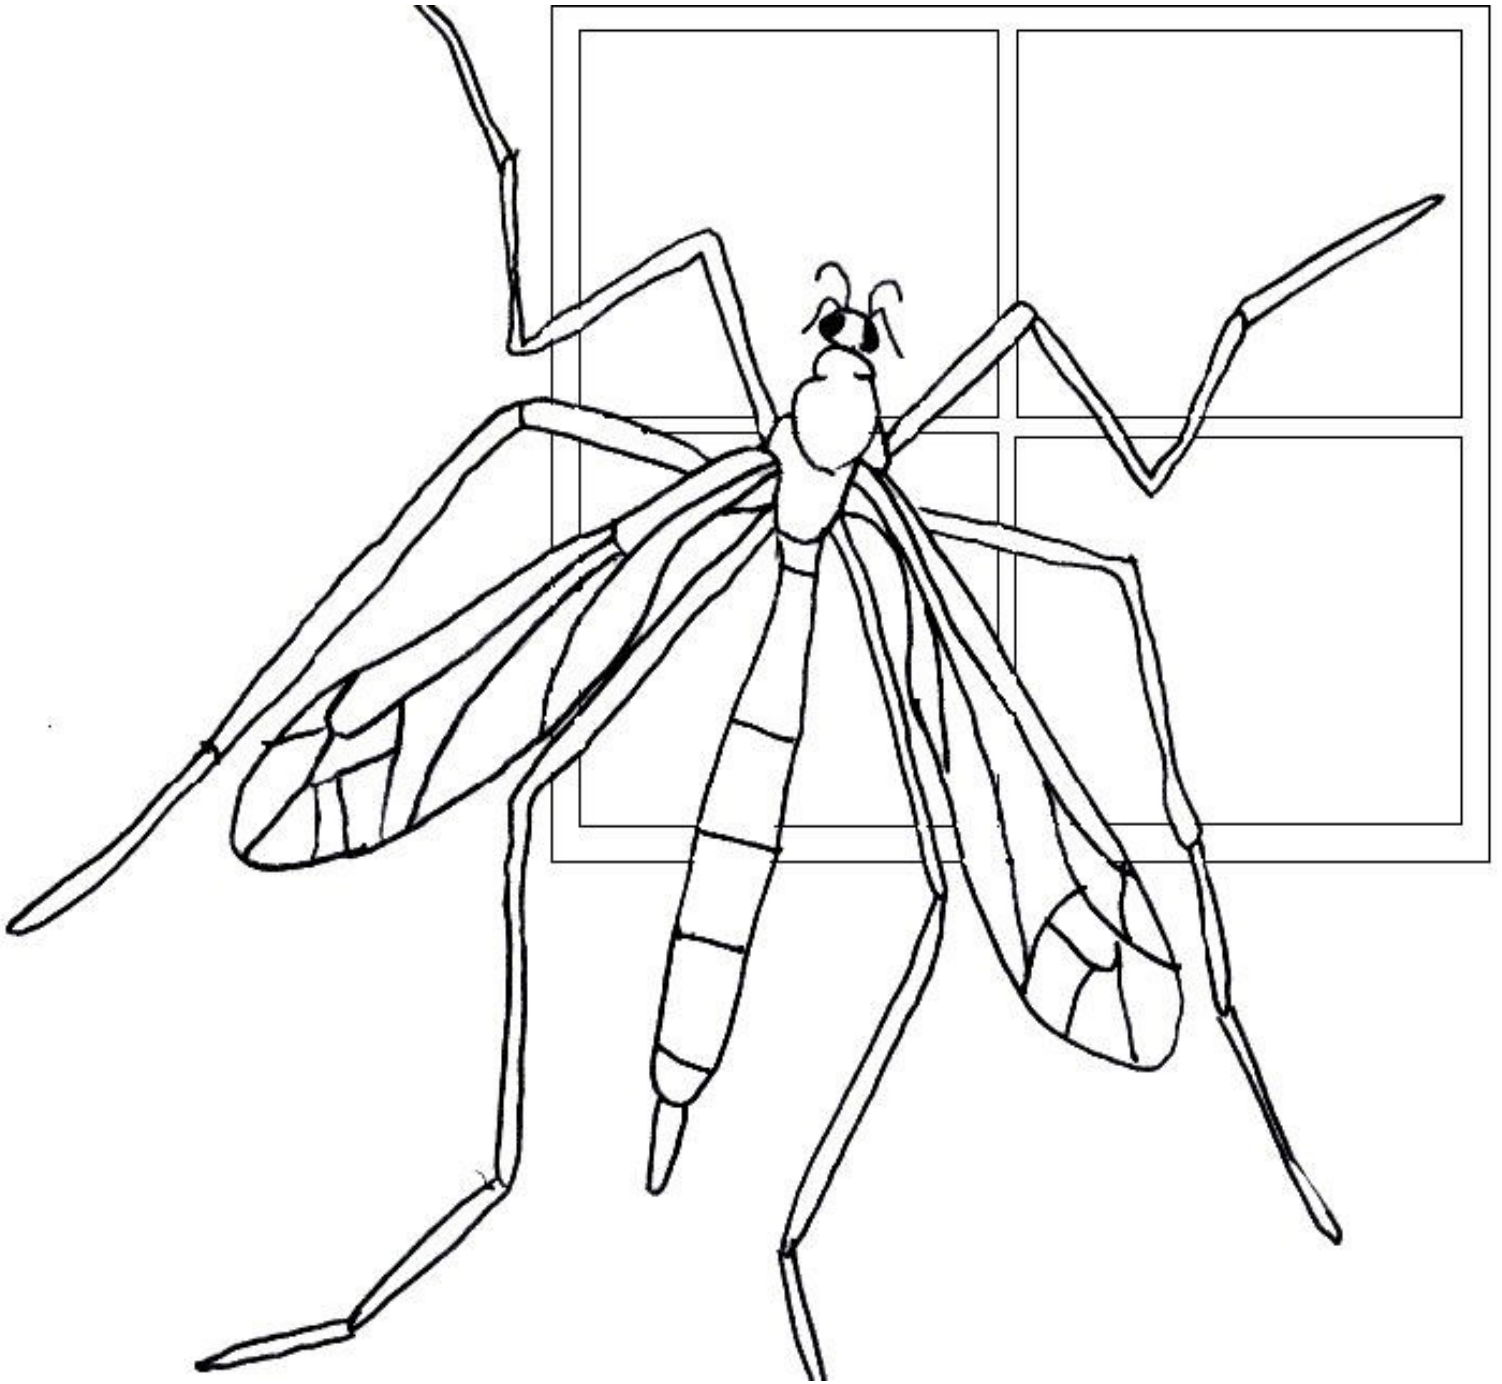

I am an adult Dragonfly.
You see me during the summer.
I like to fly around ponds and
land on plants close to the water.

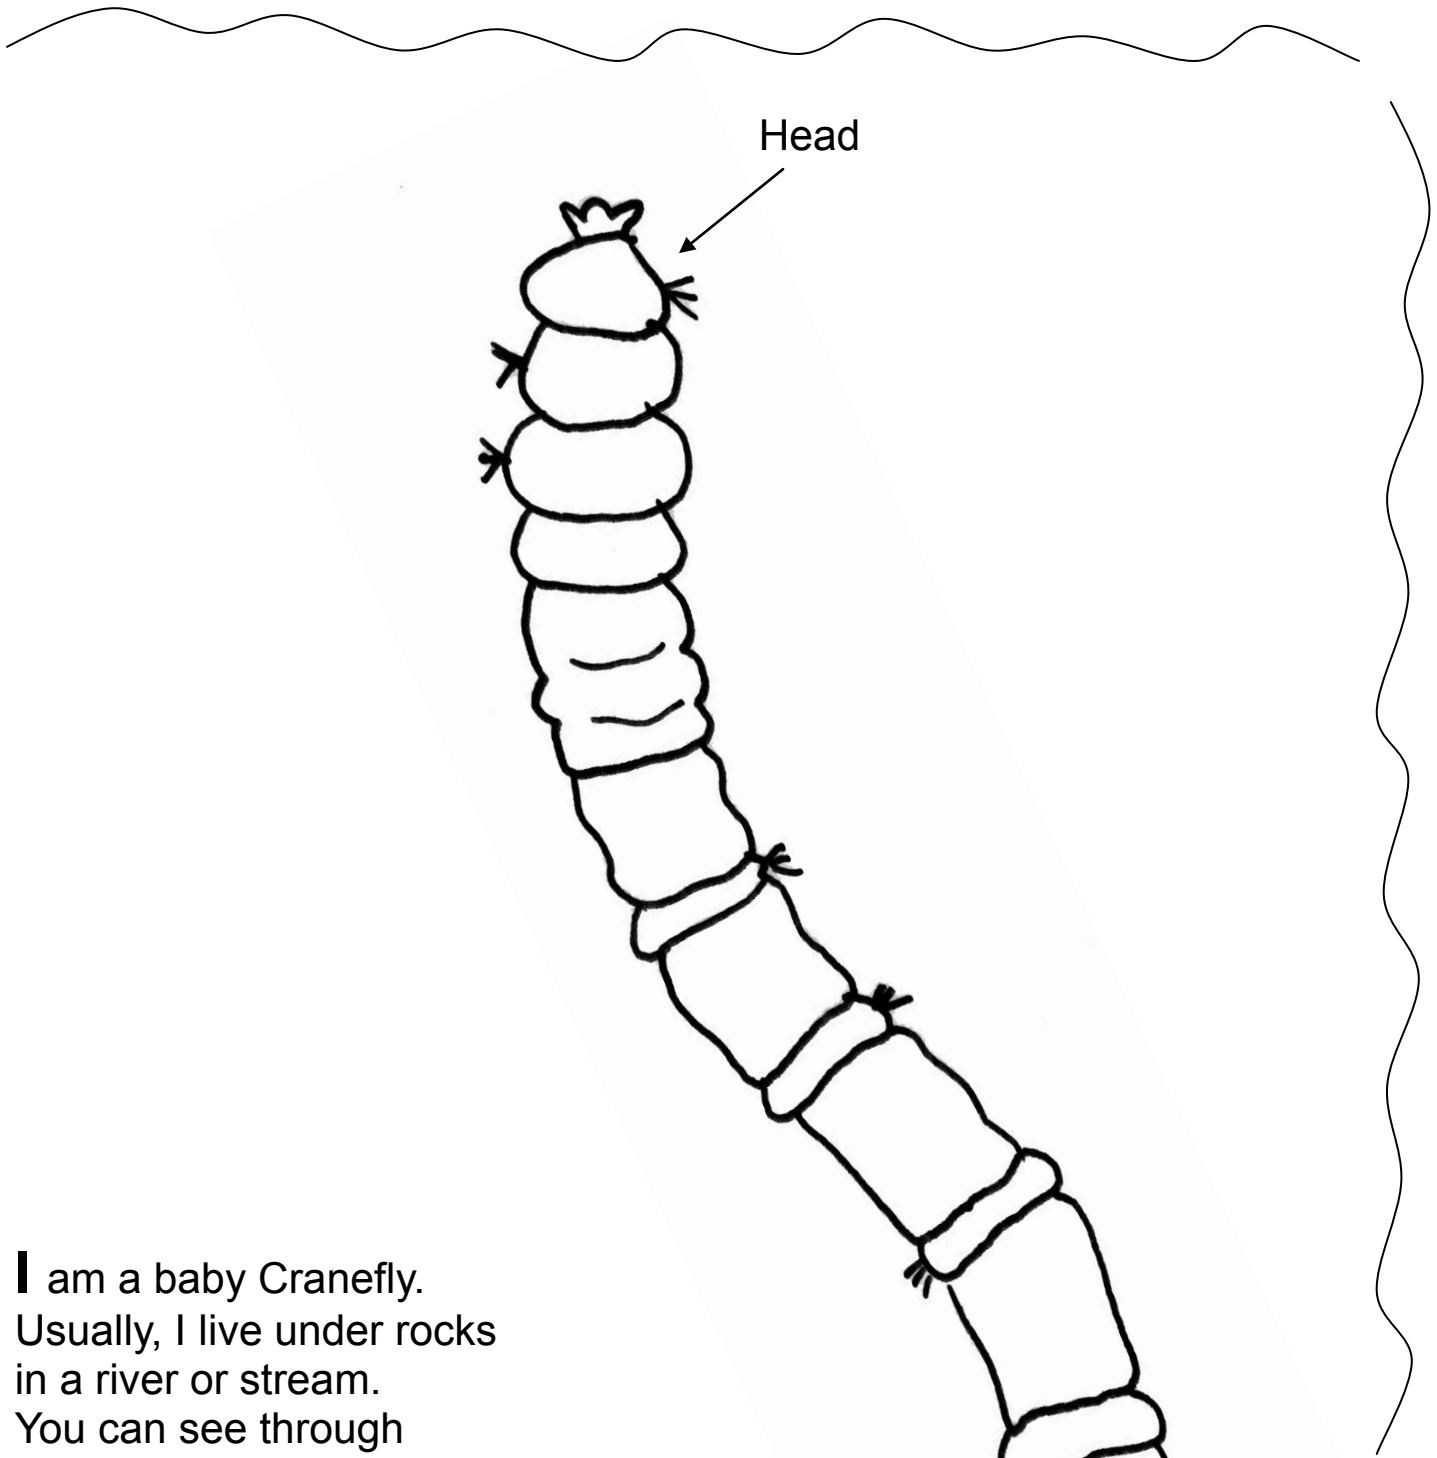

Hi, I am a baby Dragonfly. I eat tiny animals in the water, but if I get really hungry I might even eat small fish! I live in ponds and slow moving streams or rivers.

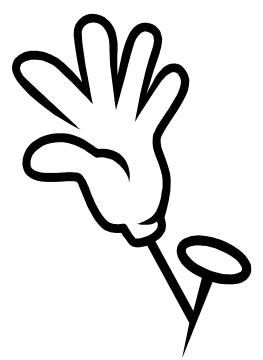

Cranefly

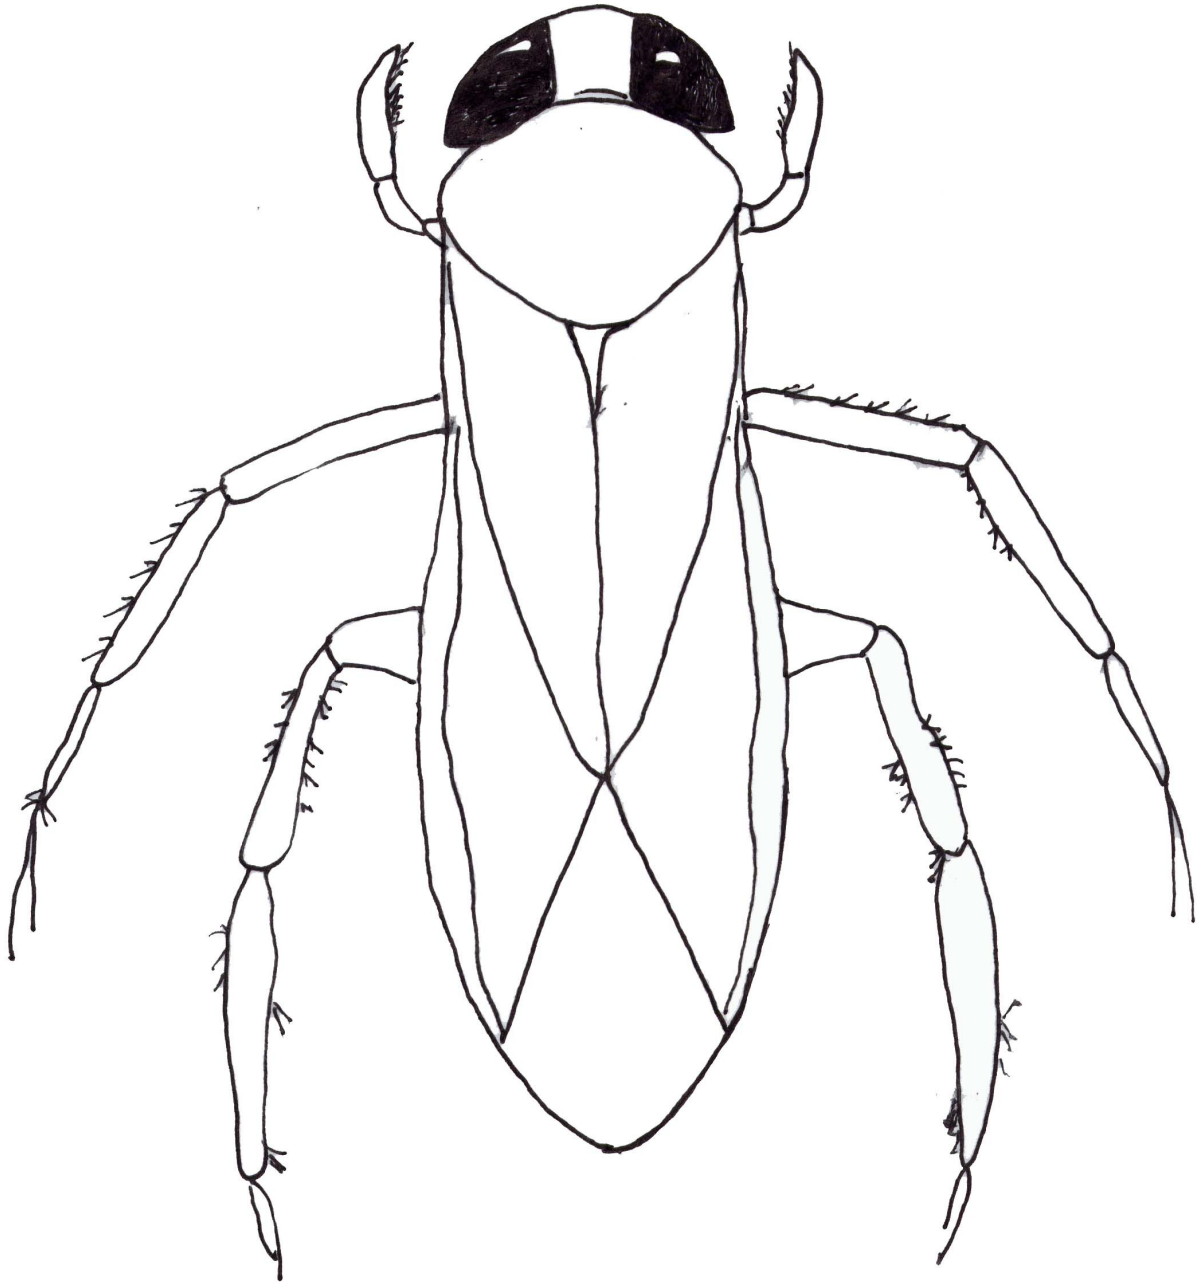

Hi! I am an adult Crane fly.
Sometimes you can find me inside your house if you leave the windows open in the summer. I look fierce, but I don't bite.

I am a baby Crane fly.
Usually, I live under rocks
in a river or stream.
You can see through
my skin to my insides!
I also can
grow to be
as big as
your little
finger.

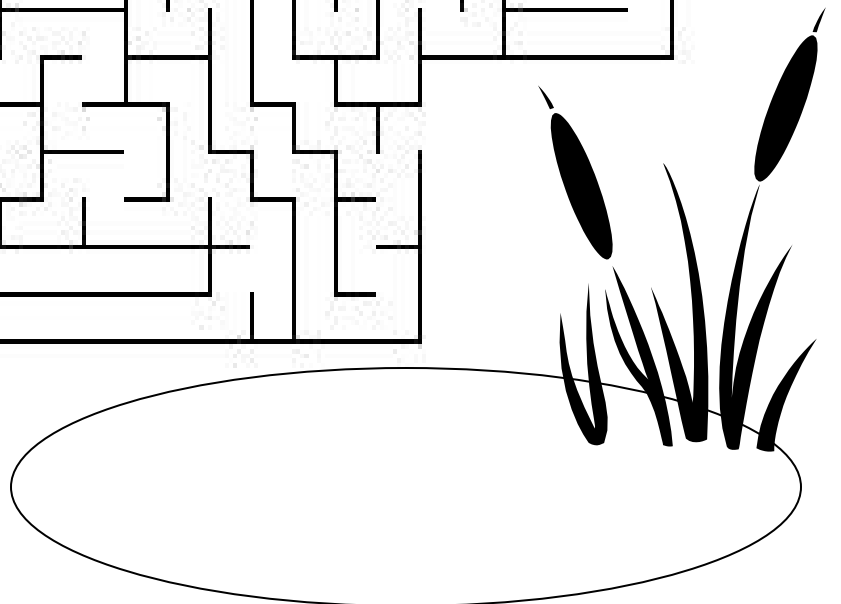

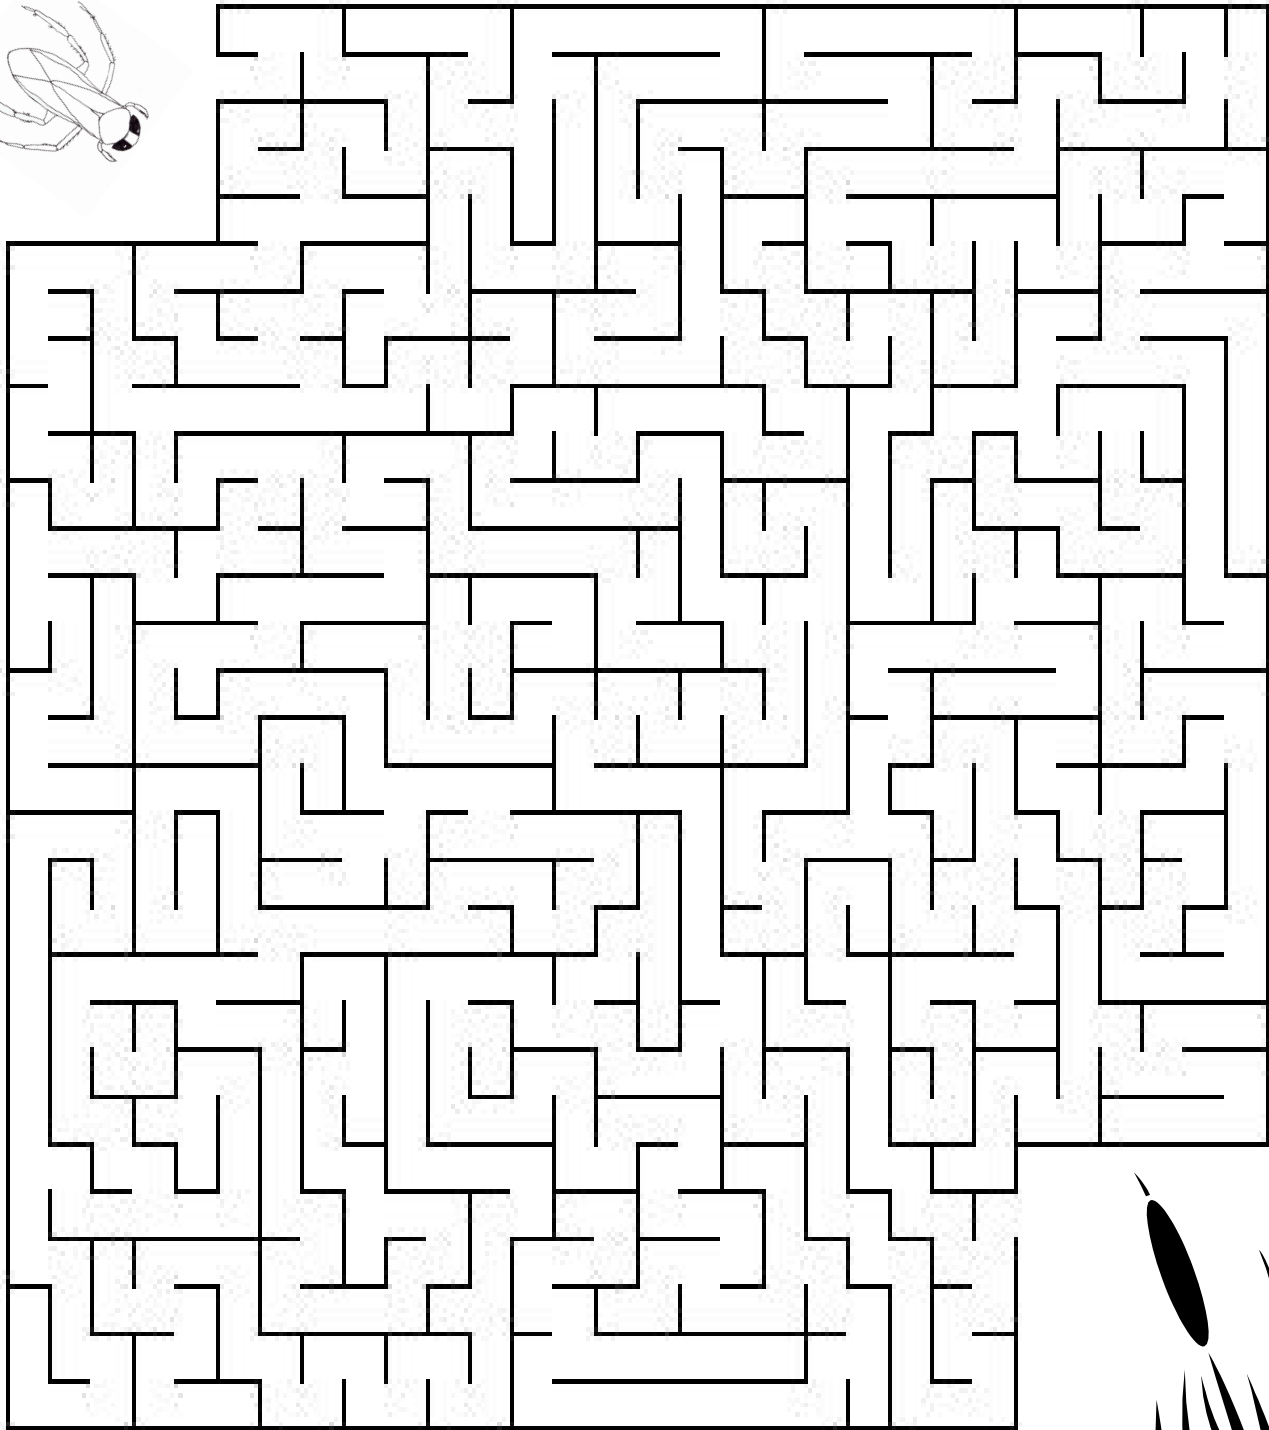

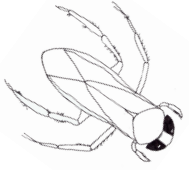

Water Boatman

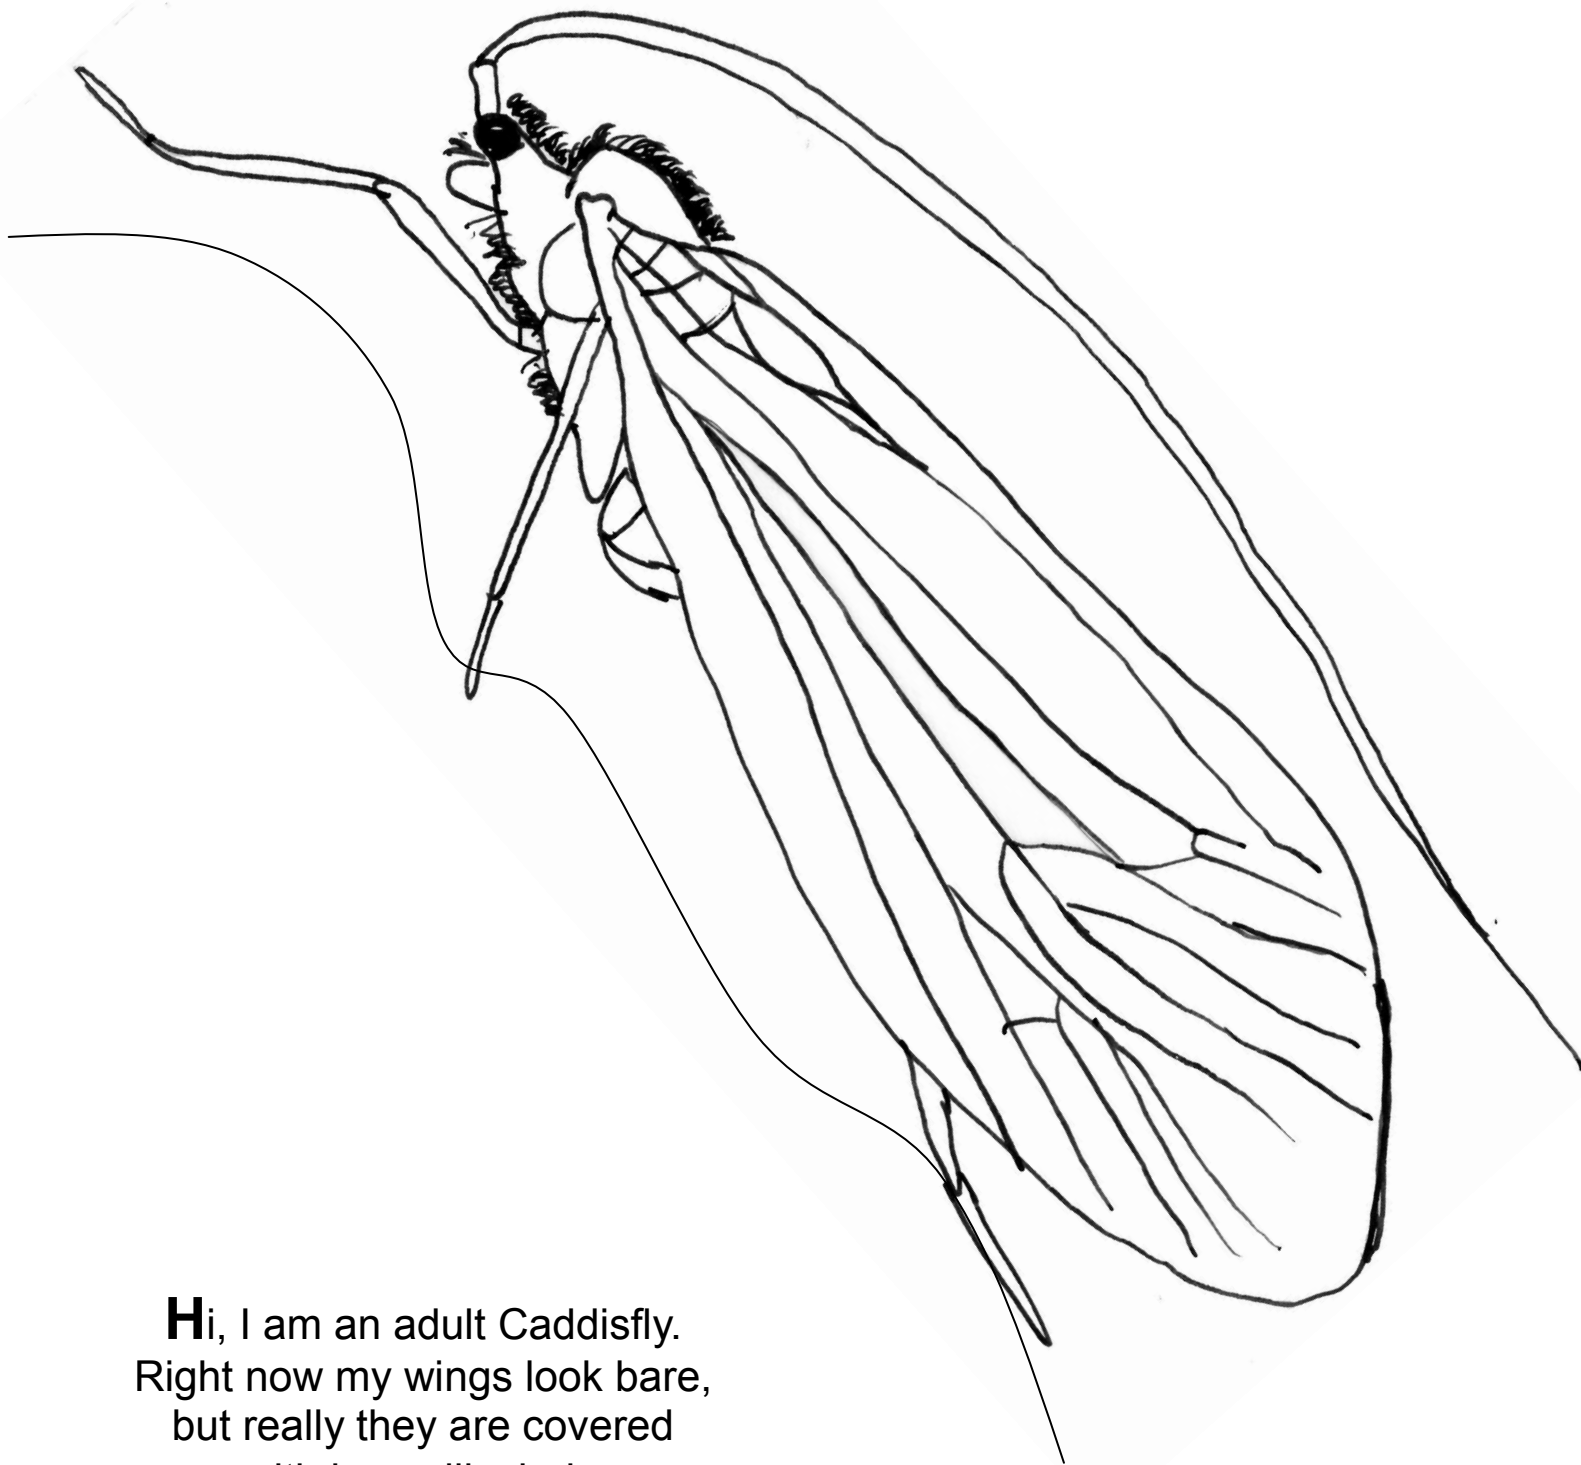

I am a Water Boatman. I look the same when I am a baby and an adult. I always live in the water. You can see me swimming through the water like a little boat with paddles.

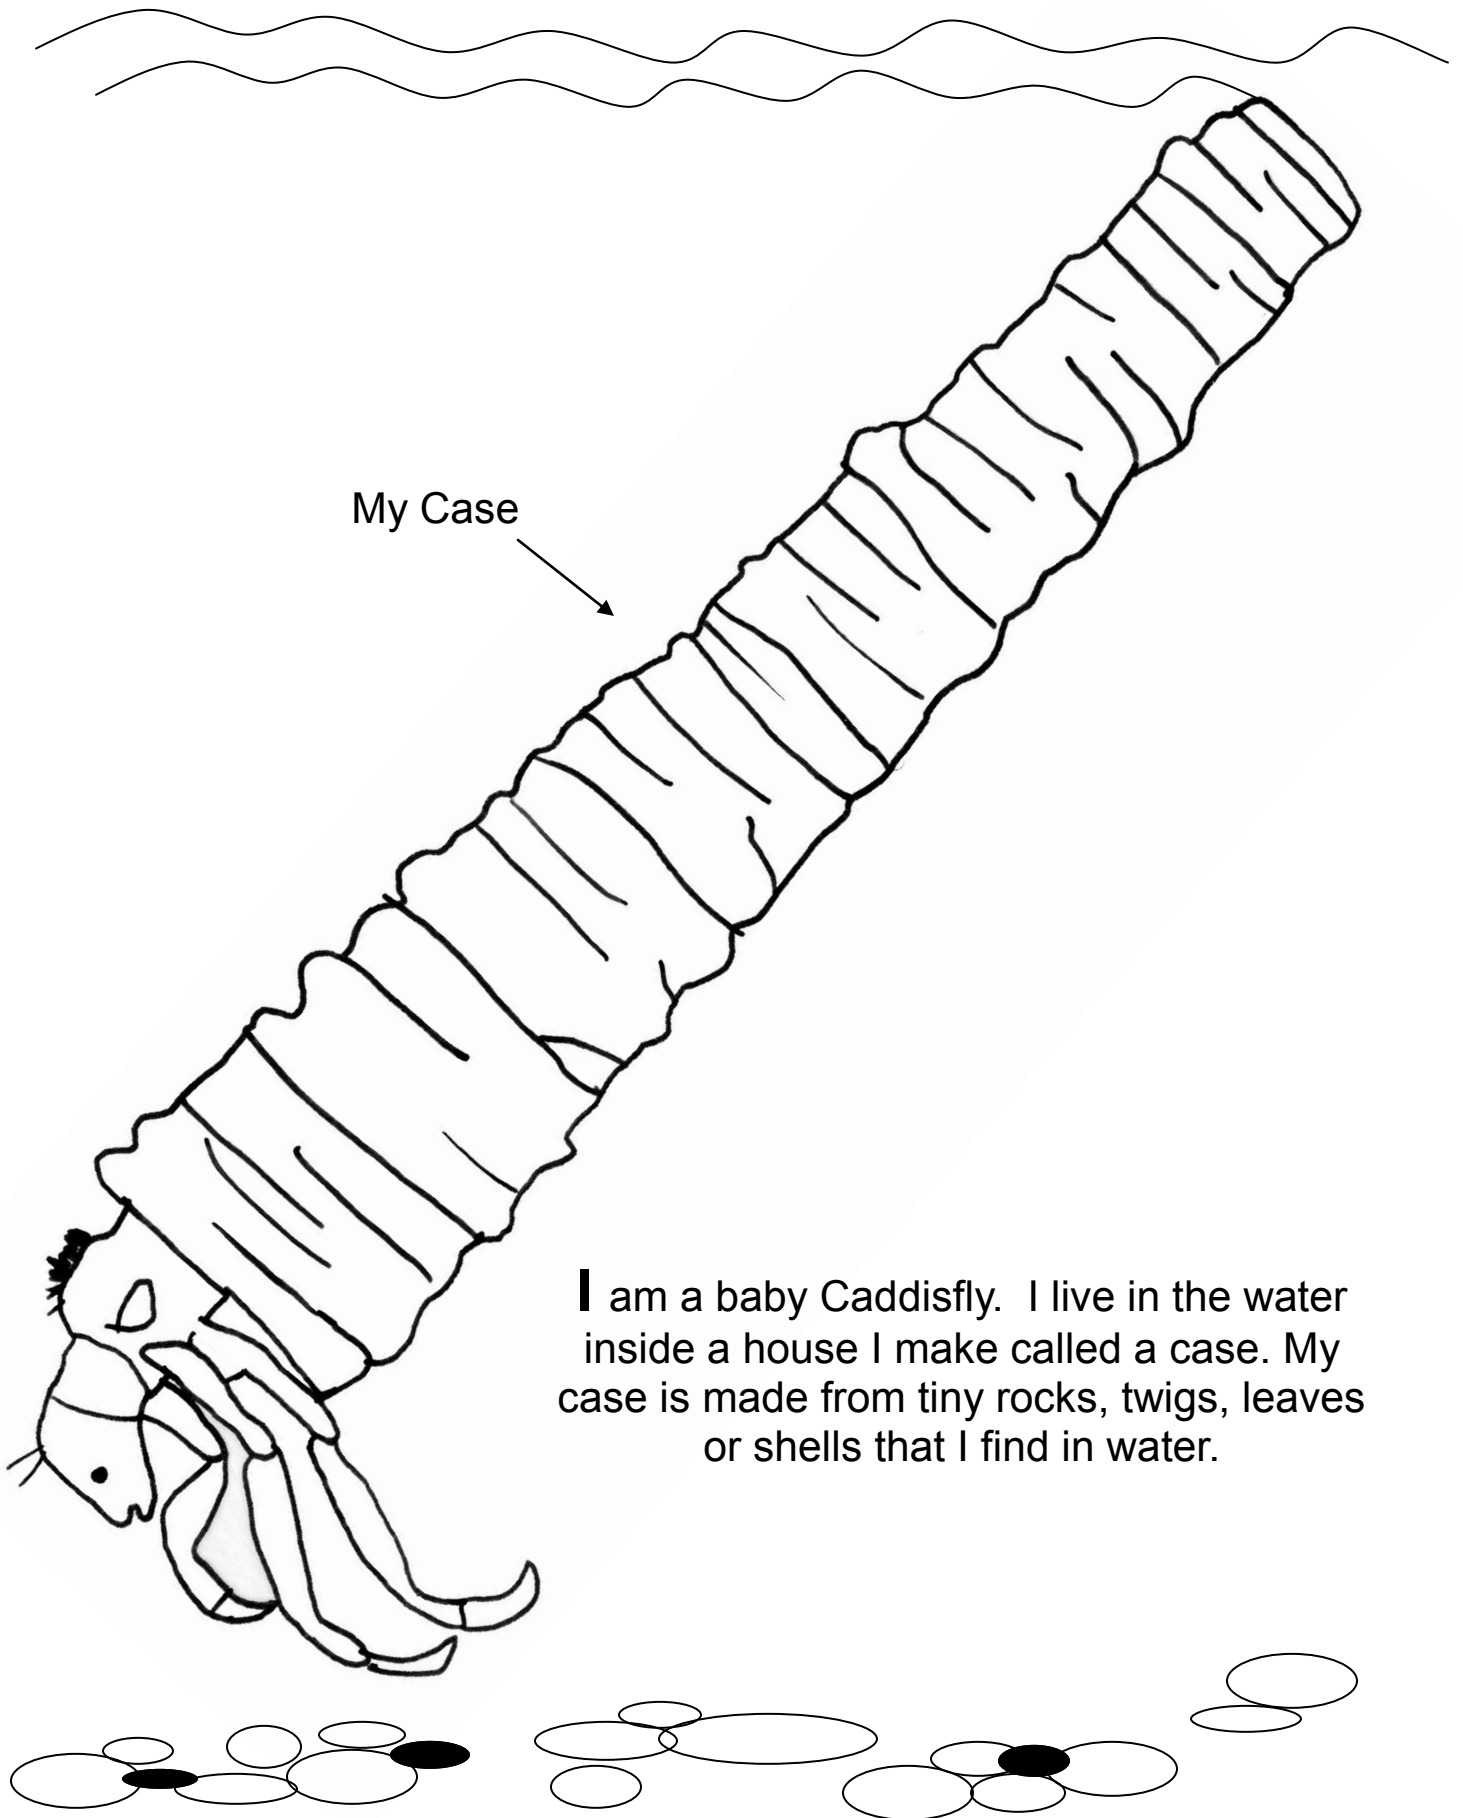

Help the Water Boatman Reach the Pond !

Caddisfly

Hi, I am an adult Caddisfly.
Right now my wings look bare,
but really they are covered
with long silky hair.

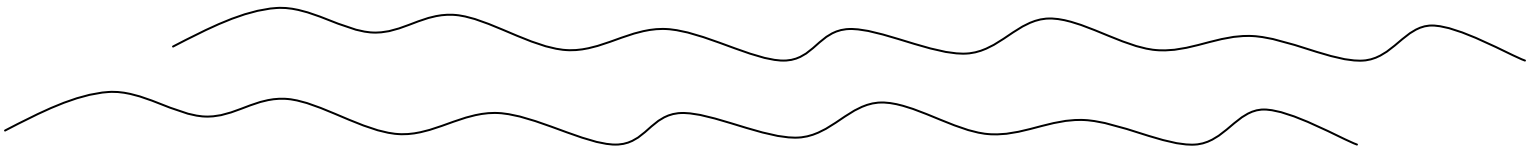

My Case

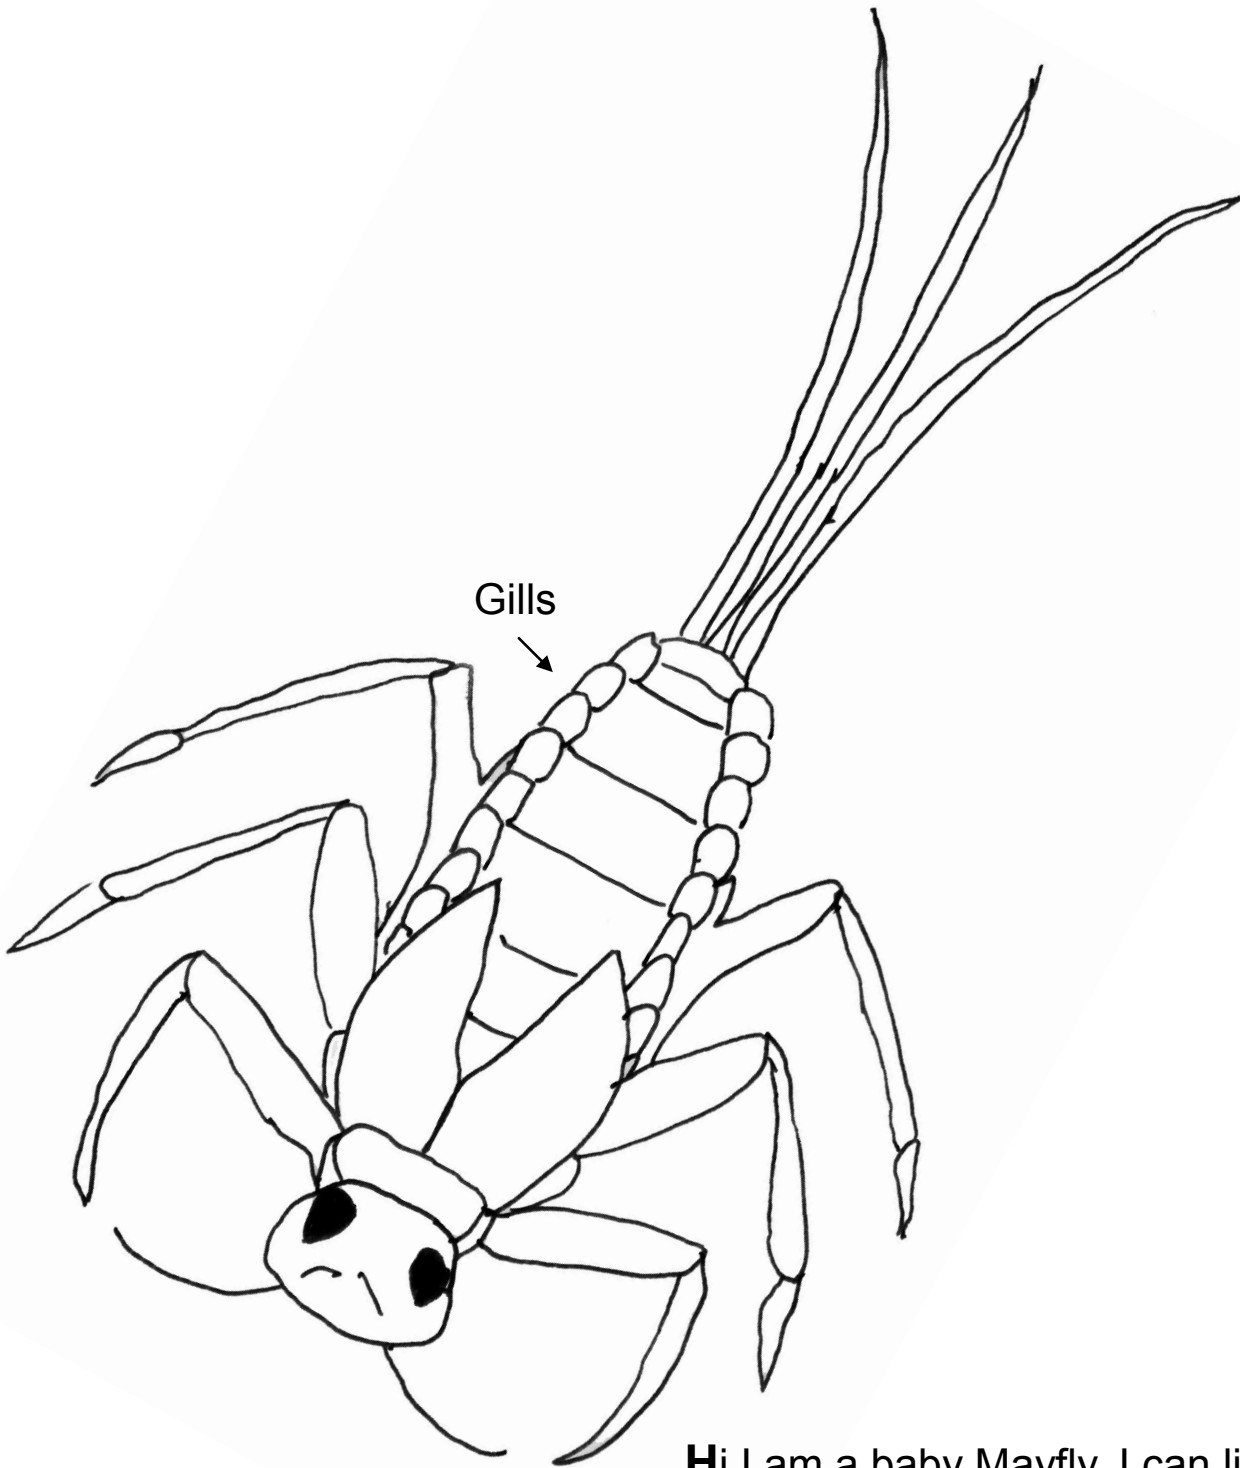

I am a baby Caddisfly. I live in the water inside a house I make called a case. My case is made from tiny rocks, twigs, leaves or shells that I find in water.

Mayfly

I am an adult Mayfly. I spend most of my life in the water. When I turn into an adult and move out of the water, I might only live for a couple of hours.

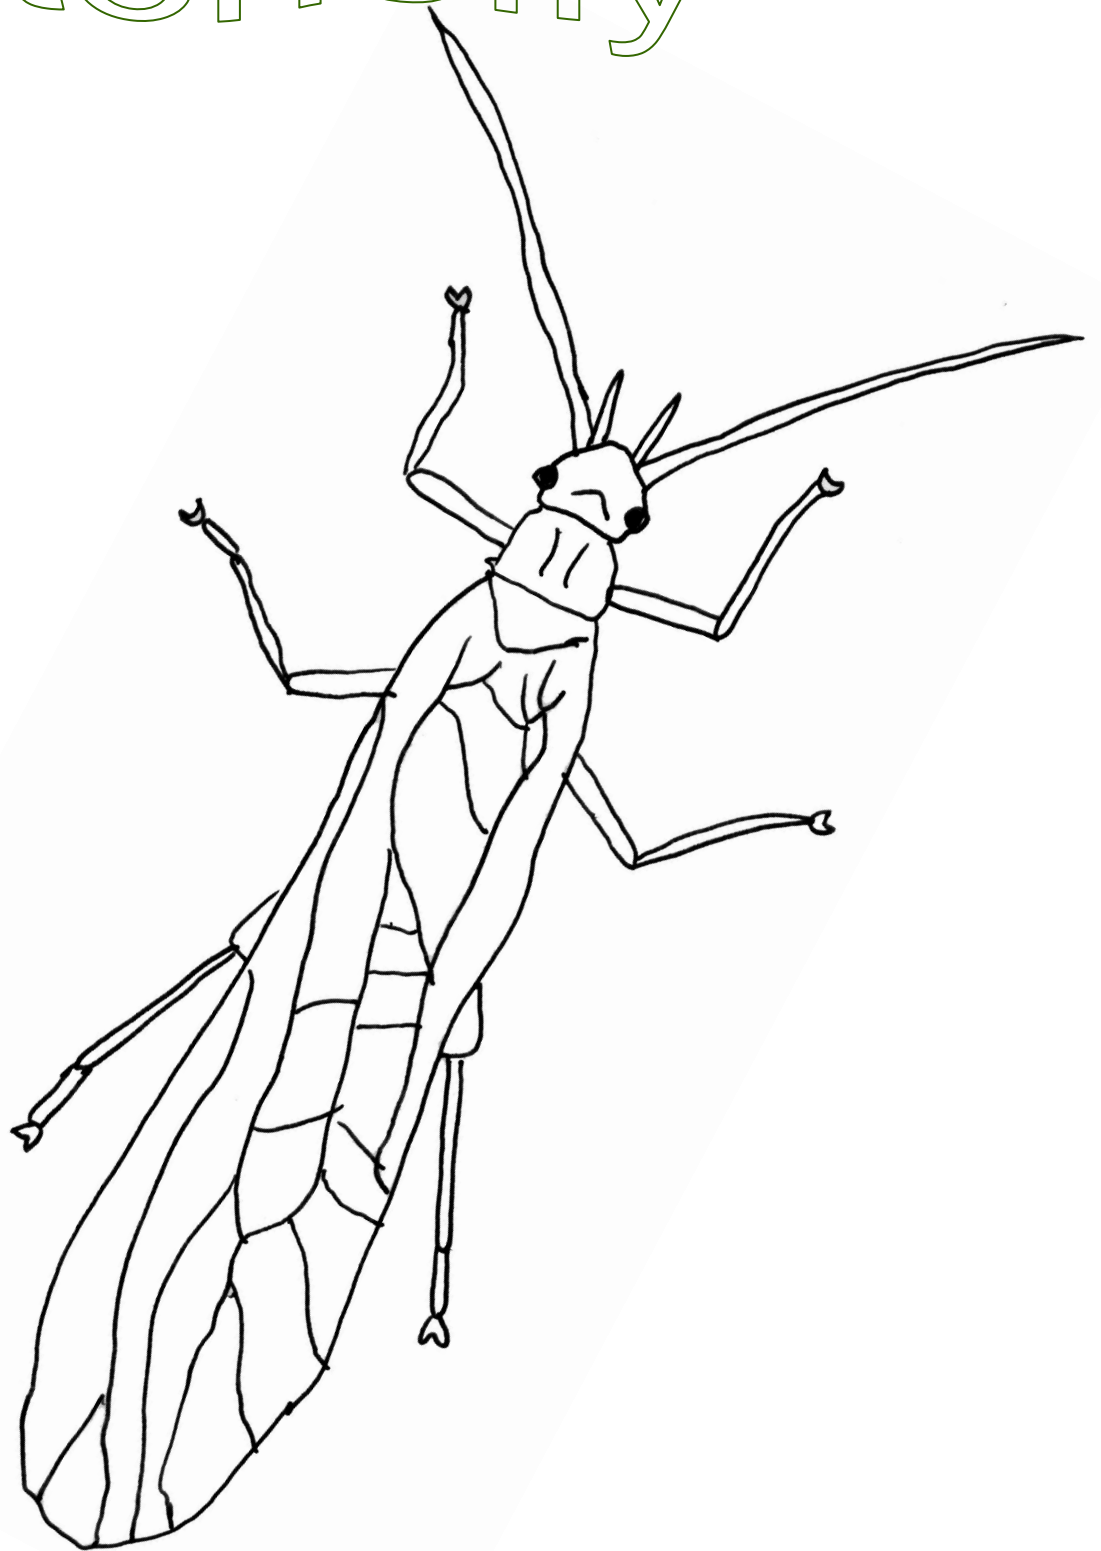

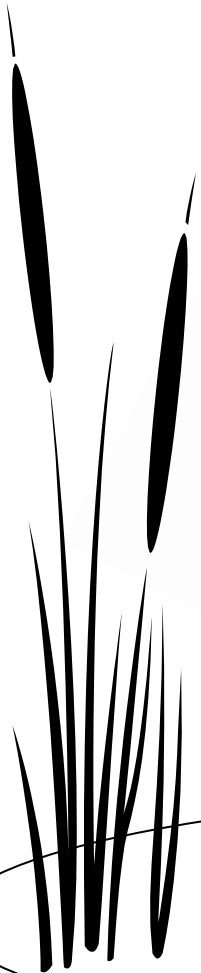

Hi I am a baby Mayfly. I can live for two to three years in the water. I use gills to breath the oxygen dissolved in the water. If you see me up close, you can watch my gills waving gently in the water.

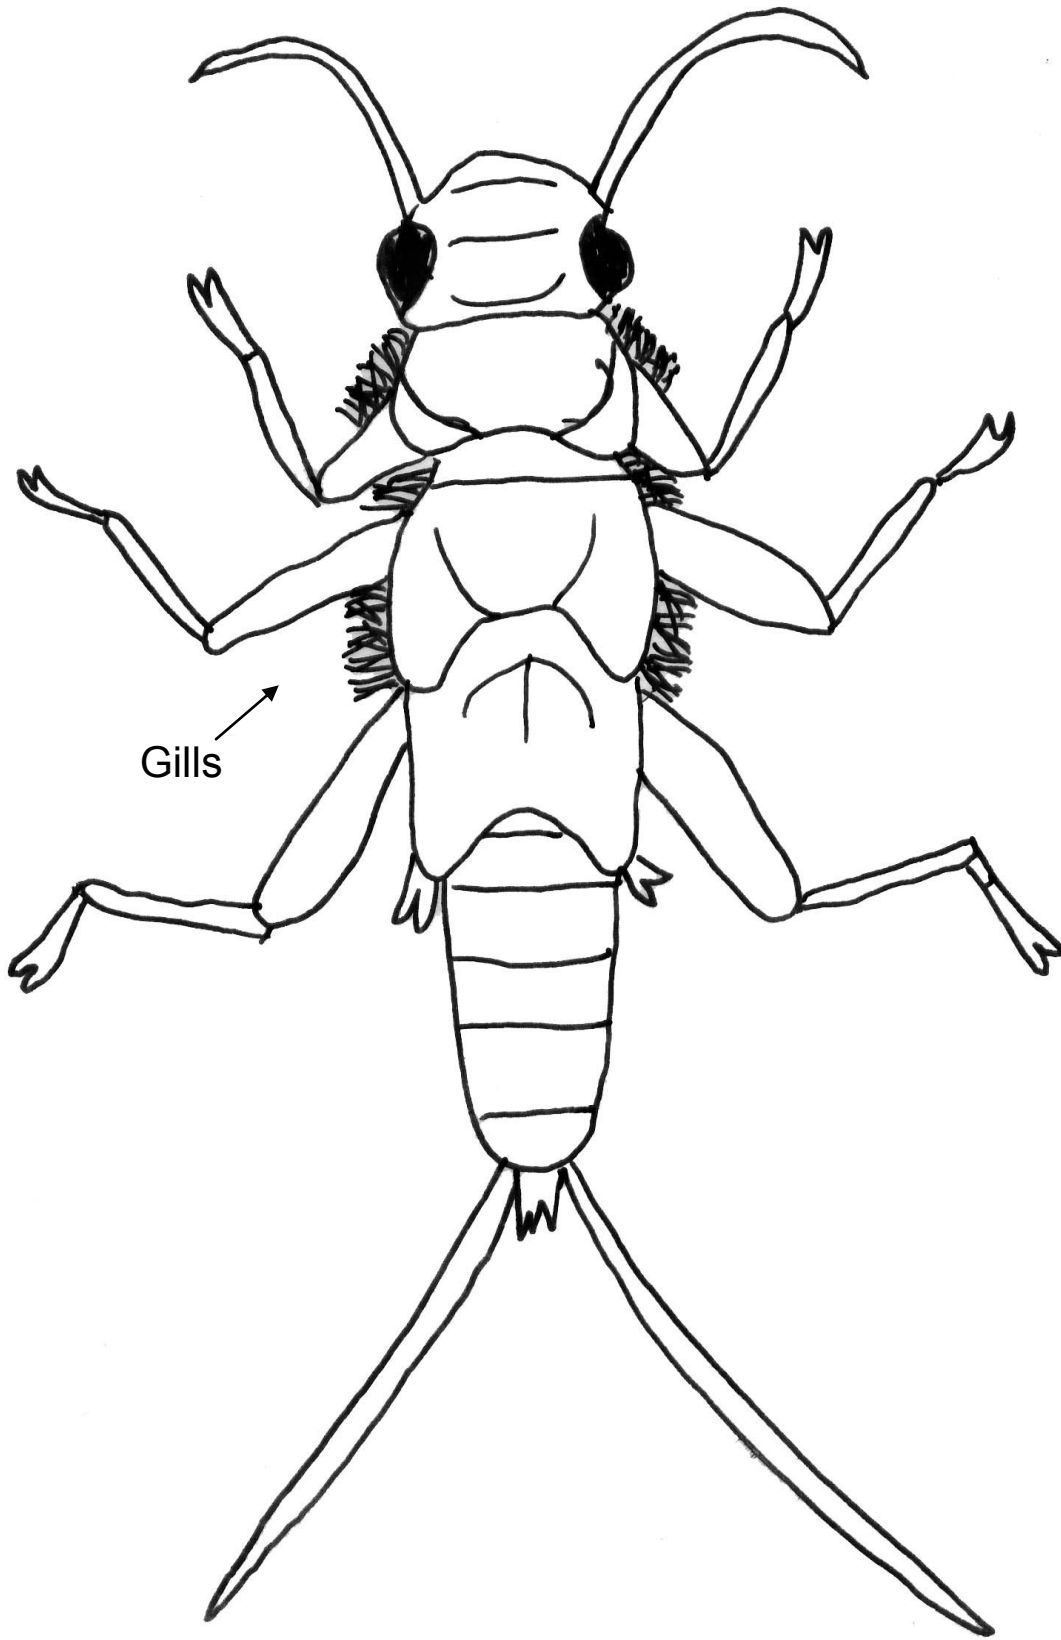

Can you think of any other creatures that have gills?

Stonefly

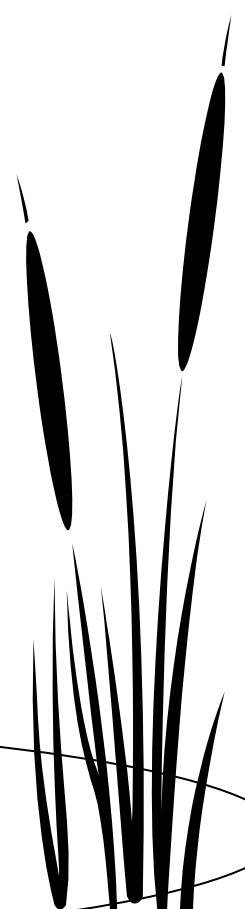

I am an adult Stonefly. I like to fly around in the early spring. Usually, you will find me near water.

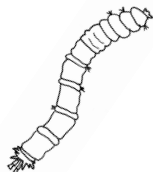

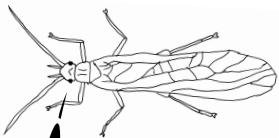

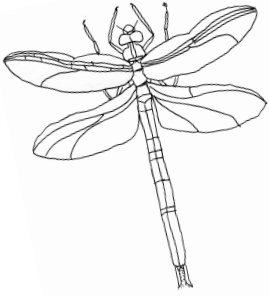

Gills

Hi, I am a baby Stonefly. Like the baby Mayfly, I also have gills, although I can't make them move.

Can You Match the Adults with the Babies?
