

## MASTER GARDENER PROGRAM APPLICATION

The purpose of the USU Extension Master Gardener program is to familiarize community minded individuals with a broad assortment of horticulture related subjects such as soils, ornamental plants, fruit and vegetables in order to allow them to become more effective volunteers. To become a Master Gardener, 40 hours of community service with the organization must be completed. This would involve serving with other already certified Master Gardeners in assisting with many local USU sponsored or affiliated events such as the gardeners market, county fair and at many local school 4-H and youth programs. Master Gardeners form close friendships and participate in many social activities together.

If you do not wish to participate in the Master Gardener organization itself, you are still welcome to participate in the class. Many find, after the fact, that it is being a member is beneficial to them.
