

MASTER GARDENER PROGRAM APPLICATION

The purpose of the USU Extension Master Gardener program is to familiarize community minded individuals with a broad assortment of horticulture related subjects such as soils, ornamental plants, fruits and vegetables in order to allow them to become more effective volunteers. To become a Master Gardener, 40 hours of community service with the organization must be complete. This would involve serving with others already certified as Master Gardeners in assisting with many local USU sponsored or affiliated events such as the gardeners market, county fair and at many local school 4-H and youth programs.

NAME: _____

ADDRESS: _____
