 Are you registering for a general gardening plot or a raised bed plot? Please keep in mind that raised bed plots are reserved for those demonstrating need.   Please make check payable to USU Extension. Checks and applications can be mailed to or dropped off at USU Extension, 179 North Main Street, #111, Logan, UT 84321, in the Cache County Administration Building. For questions or more information, call 435-752-6263. For those demonstrating need, registrations fees may be waived.

_____General Gardening Plot ($20 plus a $15 refundable cleaning deposit)

_____If available, do you want a second gardening plot? This would require an additional $20 registration.

BPCG Committee(s) I would like to help with:

Communications_____   Demonstration Garden_____Education_____

Garden Maintenance_____Other _____

Please read the following and sign at the bottom:
Garden Courtesy

- No vandalism or stealing.
- Return all tools and supplies to the shed in a tidy manner after you are finished using them.
- If there is no one else at the garden before you leave, please remember to lock the shed.
- Do not harvest produce or disturb another plot unless you've been granted permission to do so.
- Please be respectful to your fellow gardeners. Be cautious not to damage or intrude on other gardeners plots when dragging hoses, and please be aware of weeds encroaching from your plot to your neighbors' plot.

Garden Plot Upkeep

- You are responsible for your gardening plot upkeep. Weeds are a natural part of gardening and must be removed on a regular basis.
- It is required of you to keep your plots and the pathways around your plots relatively weed free. If your plot is not reasonably managed, you will be notified and given two weeks to clean-up the weeds.
- If you can no longer maintain your plot, please notify the Extension Office promptly.
- Use of mulches, compost, organic matter, etc. is encouraged. It can improve the soil in your plot and improve vegetable yields.
- Use of fertilizers is accepted.

Garden Products

- CVCG is not strictly organic, however we do adhere to principles of sustainable gardening and integrated pest management.
- Natural based pest control products such as horticultural soap, neem oil, and diatomaceous earth are accepted. All other pesticides must be pre-approved by CVCG management.
- CVCG management may apply pesticides for weed control around perimeters and on pathways of the gardens when necessary. No plots will be treated with pesticides by CVCG management.

Cleaning Deposit

- Plots must be cleaned by October 23, 2016. A green waste container will be provided at this time. Participants must report plots have been cleaned to obtain their $15 cleaning deposit.
- Plots must be free of large plant matter.
- Plots must be free of mulch material, tomato cages, twine, pavers, etc. that would affect fall plowing.

Note

- CVCG cannot be responsible for loss of items in your plot, damage to your plot or damage to plants in your plot for any reason.
- On some occasions, surfaces at the CVCG may be difficult to travel due to irrigation or other precipitation events. It is up to you to use caution at these times.
- For those demonstrating need, fees for a gardening plot may be waived.
