Heard on All Things Considered
SIGNS OF CHRONIC & PROLONGED STRESS

- Change in routine
- Physical appearance
- Mood
- Care of livestock/fields
- Physical illness
- Increase in farm accidents
- Change in appearance of farm
- Behavior issues in kids
Two Question Self-Assessment Tool:

1. During the past two weeks, have you often been bothered by feeling down, depressed, or hopeless?

2. During the past two weeks, have you often been bothered by little interest or pleasure in doing things?

*If you have a positive response to either of these questions, consider talking to your health care provider about further assessment.

1. YOU ARE NOT ALONE

Mental Illness is common and these feelings are normal and treatable

You are NOT ALONE

- 1 in 5 U.S. adults experience mental illness
- 1 in 20 U.S. adults experience serious mental illness
- 17% of youth (6-17 years) experience a mental health disorder

 Millions of people are affected by mental illness each year. Across the country, many people just like you work, perform, create, compete, laugh, love and inspire every day.

Data from CDC, NIMH and other select sources. Find citations for this resource at nami.org/mhstats
2. IT’S OK TO NOT BE OK

• Farming is Stressful
• Share your feelings with friends and family
• Ask for help
• Ask others if they need help
• Watch for signs and symptoms of poor mental health
• Save a life
SIGNS OF POOR MENTAL HEALTH

- Persistent worry and fear
- Apprehension and uneasiness
- Avoidance of others
- Feeling sad
- Lack of interest or pleasure in activities
- Significant weight change or changes in appetite
