QUESTIONS FOR DISCUSSION

Why should we leave space between our plants?
What kinds of plants should not be planted together?
Why did you plant the vegetables you did?
How many of these plants can you start indoors?
When should you plant certain plants?
What would happen if you planted them too early?
What would happen if you planted them too late?
How is transplanting different from starting plants?
What could be hard for the plant to adjust to if you transport it?
What other changes are you dealing with right now in your life?
What kind of things do you need to grow in your life?
If there isn't enough space in your garden, what should you do?
How would you take care of your garden?
