[Addressing Opioid Use Disorder among LGBTQ+ Populations](#) (June 2018)

This brief discusses the impact that opioid use disorder has on the lesbian, gay, bisexual, transgender and queer (LGBTQ) community. It will highlight best practices, trauma-informed care and behavioral health integration into primary care.

[Suicide Risk and Prevention for LGBTQ Patients](#) (September 2018)

This publication offers a brief summary of what is known about suicidal behavior and risk among LGBTQ people, followed by information and resources for health centers to help both young and old LGBTQ people get support and tap into internal and community resilience.

[Caring for Transgender People with Severe Mental Illness](#) (May 2018)

Transgender people, like the general population, can suffer from a variety of common and rare severe mental health illnesses (SMI). This brief will cover recommendations on caring for this high-risk population.
