

Davis County 4-H Summer Camps

Young Scientists Camp

Calling all aspiring scientists! This camp series is an interactive look at all different areas of science. We'll learn about natural and technological sciences from aquatic biology to coding, and each week we'll explore different challenges and topics! **4 sessions: June-August**

Journey to Atlantis

Let's Journey to Atlantis with some of our teen leaders! Kids will learn about the ocean. Each day we will discover a new area of the water starting with The Shallows, then going Into the Deep, and ending in Atlantis! Campers will explore a variety of STEM topics, make yummy treats and get to fly drones! **August 2-4**

Sustainable You!

Come learn about living more sustainably! We'll explore issues facing the planet, and their solutions, and create and practice healthy habits. You'll learn about our water, land, air, food, and energy. This camp will help you to do your part in saving the world! **July 18-22 or August 8-12**

Oreo's Cooking Club: Cooking Camp Series

Cooking and sharing with others is one of the greatest joys in life. In this camp, you'll learn important cooking techniques to take your chef skills to the next level, and share your creations with friends and families at the cloverbud picnic! **3 sessions: June-August**

Fishing Camp

Let's Go Fishing! Discover and practice fishing techniques, while learning about the habitats that support fish. Parents are welcome to accompany their children during the fishing fun at the Kaysville Ponds. **3 sessions: June-August**

Snap! Fizzle! Boom!

Come learn all about things that snap, fizzle, and BOOM! Kids will get a hands on experience doing science experiments, making treats, and small (safe) explosions. We will learn about the science behind these activities while having fun! **June 13-14**

Dark Sky Camp

Do you love gazing at the stars? Are you interested the night sky? This camp is an introduction to astronomy and the value of dark skies. We'll study the effects of light pollution on the natural world & human health. Join us in exploration of the stars & constellations, and other out of this world places. **June 20-22 (optional Star Party June 24)**
