

# Western SARE Grants

If you're a farmer, rancher, graduate student, researcher or other agricultural professional working to improve sustainability, we have a grant program for you.

*Check our website and get our newsletter for application information*

## Graduate Student Grants in Sustainable Agriculture

The Graduate Student Research & Education Program involves Masters or Ph.D students partnering with producers on innovative research and outreach on key sustainable agriculture topics.

## Farmer/Rancher Grants

The Farmer/Rancher Program focuses on advancing on-farm sustainability solutions by funding innovative producer-driven research and outreach.

## Professional + Producer Grants

The Professional + Producer Program provides opportunities for agriculture professionals working directly with farmers and ranchers on sustainable agriculture efforts.

## Research & Education Grants

The Research & Education Program involves scientists, agricultural producers, and others using interdisciplinary approaches to advance sustainable agriculture through innovative research and outreach.

## Professional Development Program Grants

The Professional Development Program advances education and outreach strategies for professionals and educators who work directly with farmers and ranchers.

## Research to Grass Roots Grants

The Research to Grassroots Program involves interdisciplinary teams who take SARE research results out into the field.

## Sabbatical Grants

The Sabbatical Research & Education Program provides an opportunity for faculty around the world to partner with farmers, ranchers, agricultural professionals, and researchers of the Western U.S. region on innovative research and outreach.

This material is based upon work supported by the National Institute of Food and Agriculture, U.S. Department of Agriculture, under award numbers 200592 and 2016-38640-25383.

Any opinions, findings, conclusions or recommendations expressed in this publication are those of the authors and do not necessarily reflect the view of the U.S. Department of Agriculture.

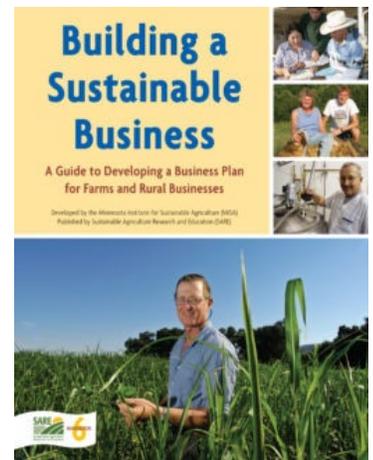

# Western SARE

## Sustainable Agriculture Research and Education

Western SARE advances innovations that promote environmental stewardship, enhance quality of life, and improve profitability of rural communities by investing in groundbreaking agricultural research and education.

### Learning Center

The SARE Learning Center is a national database filled with tons of sustainable agriculture information, including: books, factsheets, bulletins, curricula, multimedia presentations and more! Material is available in English and Spanish.
