CODE OF ETHICS

This code of ethics applies to anyone exhibiting animals in livestock shows in the State of Utah. It includes Junior as well as Open Class exhibitors who compete in structured classes of competition. All classes of livestock offered at the livestock events are included. The following practices or procedures are unacceptable and are defined as deceptive, fraudulent, unethical, and inhumane in the care, fitting, preparation, and showing of all classes of livestock:

Use of illegal drugs is considered a premeditated act. The use of any illegal drugs is prohibited.

Legal or illegal substances used to phenotypically affect the appearance of an animal entered in livestock events are prohibited. Any information obtained in the practice of illegal alteration of an animal will be turned over to the proper authorities for criminal prosecution. **This is a one-strike, and you are out policy.** Exhibitors will forfeit any premium, awards, or auction proceeds, and will be prohibited from further competition at shows in the State of Utah, as well as being subject to criminal prosecution if proven guilty.

Treating an animal internally or externally, with any irritant, counterirritant, or other substance used to artificially change the conformation or appearance of an animal for show is considered unethical, inhumane, and is prohibited. This includes, but is not limited to, the use of graphite, powders, hemp, artificial hair, coloring, common products such as fly spray, ointment, or liniment used to the point that it is irritating, or similar type products. The use of dyes, spray paint, or other artificial coloring which result in altering an animal's true and natural appearance and/or color is prohibited. Adding false hair or hair like material, fleece, or skin at any point, spot, or area of the animal's body is illegal and will result in immediate disqualification. Any liquid or substance not considered part of an accepted and normal diet for livestock is deemed illegal and inhumane. For example: the use of alcoholic or carbonated beverages as a drench or filler, etc.

The use of tranquilizers, sedatives, or depressants which alter the physical or physiological state of the animal is illegal. Exceptions to this rule would be licensed, certified veterinarians' treatment for a recognized disease or injury, or recommendation for tranquilizing breeding animals in heat that might compromise the safety of others. The drugs must be approved by the Food and Drug Administration for use in meat producing animals. **All exhibitors will advise show management of any drug and/or medication administered to an animal that might be detected at the time of showing or at meat inspection.** The name of the drug, its purpose, the person who administered the drug, time, and date of the administration will be presented to show management prior to the showing and sale of the animal. Failure to report this information to the show management will result in severe penalties and/or disqualification. Any use of drugs or substances not approved by the Food and Drug Administration is strictly prohibited. All animals entered in the livestock competition will be subject to testing for foreign substances that exceed acceptable levels established by the DFA, FSIS, USDA, or EPA. During the livestock event, in the case of an animal requiring treatment, all medication shall be administered by a licensed veterinarian and the livestock show officials shall be notified.

Surgery, injection, or insertion of foreign material under the skin and/or into the flesh of an animal to change the natural contour, conformation, or appearance of an animals' body is illegal. This includes vegetable oil, silicon, or any other substance used to alter the shape of an animal.

Acceptable practices of physical preparations which are allowed including: Clipping of hair, trimming of hooves, dehorning, or removal of ancillary teats.

The use of inhumane fitting, showing and/or handling practices of animals shall not be tolerated. For example: breaking of tails, striking of the animal to cause swelling or for bracing purposes, use of an electrical contrivance, **muzzles**, etc. is NOT acceptable.

Direct criticism or interference with the judge, show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited.

At the time an animal is sold at auction at the livestock show the exhibit shall be held directly responsible for animals that are rejected at the processing center for any reason. The seller may be liable to the buyer for an amount equal to three times the purchase price and may also be liable for attorney's fees and civil penalties. Show management may share acceptable intelligence and evidence information with FDA or USDA. If, for any reason, the FDA or USDA inspectors must remove any part of a meat animal carcass, the market price will be discounted.

Show management reserves the right to require animal health certificates. Health inspection and diagnostic test may be made before or after animals are on the livestock show premises for exhibitor and animal safety, or to inaugurate disease control procedures which may become necessary in emergencies as determined by animal health officials. Any violation of the "Utah State Junior Livestock Show Ring Code of Ethics" or specific rules as designated by individual fairs and livestock shows will result in forfeiture of premiums and awards, disqualification, and may result in probationary status and/or loss of eligibility for future participation in organized livestock competitions. Possible civil penalties may be imposed by the proper authorities based on evidence provided by the livestock show of exhibitors in violation of the Federal Food, Drug and Cosmetic act/or the animal mistreatment, neglect, and abandonment laws that apply on the local, state, and national levels.

Other cooperating shows will be notified of the action taken by show management which may affect the eligibility of the individual, group, or sponsoring organization for participation at other shows. The decision of the livestock show management will be final.

Drug Withdrawal: It is unethical and, in most cases, even unlawful to administer drugs to livestock within 20 to 30 days of slaughter. Animals too unmanageable to show should be withdrawn from their class rather than be tranquilized. This situation will be monitored by the Duchesne County Fair Livestock Show Committee and the show veterinarian. By federal regulation, random testing will occur at slaughter, and animals will be condemned which have been given any injection or oral dosages of tranquilizers, painkillers, antibiotics, diuretics, steroids, or other foreign substances during withdrawal periods before slaughter. All sales money will be withheld in such cases. Bloat medicine and other medication with no withdrawal requirements may be permissible. Exhibitors need to be aware of potential health hazards to consumers who eat animals that have received any of the above-mentioned dosages. Please do not put someone's life in jeopardy.

- **ALL ADULTS working with any Jr exhibitor are under an affirmative responsibility to do more than avoid improper or questionable acts. Their moral values must be SO certain**

and positive that those younger and more pliable will be influenced by their fine example.

- ***ALL YOUTH***: exhibitors of livestock shall at ALL times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall ***ALWAYS*** reflect the highest standards of honor and dignity to promote the advancement of agriculture education.
- ******ANY****** exhibitor, family member, or persons associated with an exhibitor caught breaking the rules, mistreating animals, or involved in un-sportsman like conduct (this ***INCLUDES both physical and verbal actions***) in any Junior Livestock Show ***WILL BE BANNED*** from the Duchesne County Fair Livestock Show for at least one year, with up to a possible lifetime ban if deemed necessary. Any animal that tests positive for illegal drugs, the exhibitor will receive a lifetime ban from the Duchesne County Fair Livestock Show and Sale. Any exhibitor who vandalizes the area before the sale will be banned from the sale. Any vandalism committed by an exhibitor after the sale will result in the exhibitor being banned from participating in next year's show.
- It is ***ALL*** our duty to uphold the 4-H and FFA MOTTO'S:
