

Adding Icons in OU Campus

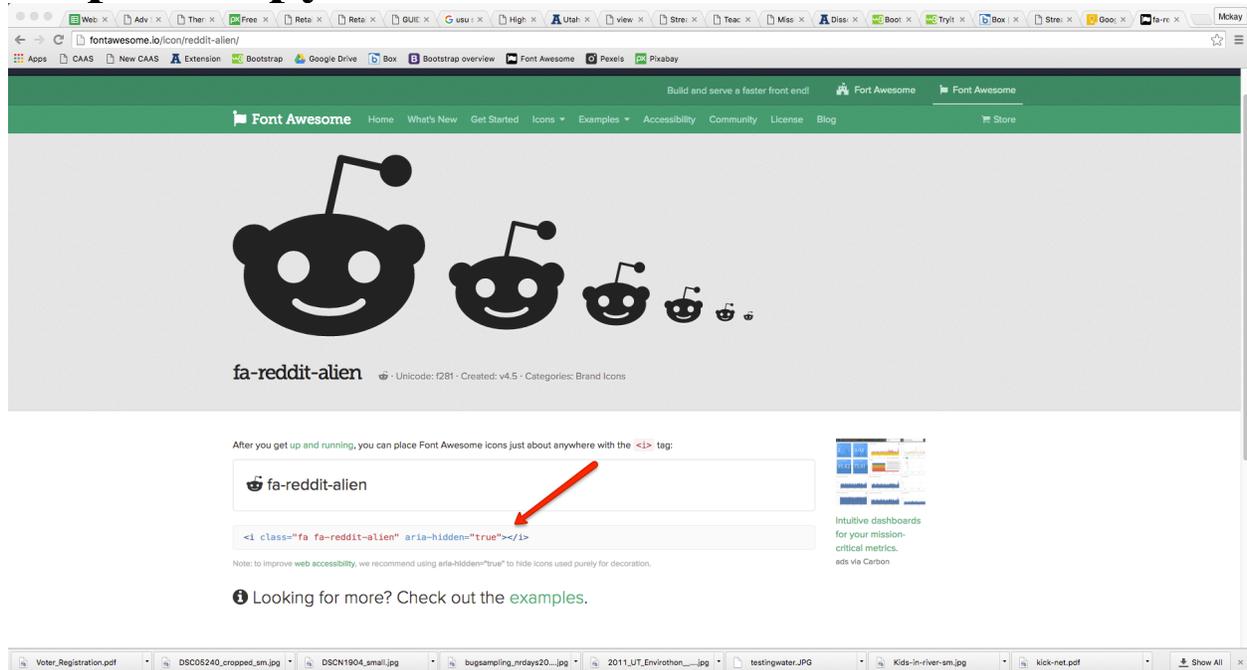

***This guide is for those who would consider themselves at an advanced level with OU campus*

Step 1- Find an Icon

1. Go to <http://fontawesome.io/>
2. Click Icons
3. Locate Desired Icon

Step 2- Copy the Code

1. Once you've selected your desired Icon. Copy the Code that looks like the one below

```
<i class="fa fa-reddit-alien" aria-hidden="true"></i>
```

Step 3- Adding the Code

```
22 <option value="BlueImpGallery" selected="false">Blue Imp Gallery</option>
23 </parameter>
24 <parameter name="feed" type="filechooser" group="Everyone" prompt="NEWS OPTIONS" alt="Defined an RS:
25 <parameter section="Comments" name="show" group="Everyone" prompt="Show Cor
26 <option value="show" selected="true"
27 </parameter>
28
29 </ouc:properties>
30
31 <ouc:properties label="metadata">
32 <title>Test for Adding Icons</title>
33 <meta name="Description" content="Just using this page as an example for adding icons" />
34 </ouc:properties>
35
36 <ouc:div label="maincontent" group="Everyone" button-text="Main Content"><ouc:editor csspath="/_resource
class="maincontent"/><p>Lets Add an Icon</p>
37 <p>&nbsp;</p>
38 <p>This page is meant to help people learn how to add an icon to their pages. Hopefully this tutorial is ea:
make the page look a little more full than it really is. More text plus even more text equals lots of text.
```

Insert Icon Code Here

1. Open the source editor in OU Campus and paste the code in the desired location

```
Everyone" button-text="Main Content"><ouc:editor csspath="/_re:
<i class="fa fa-reddit-alien" aria-hidden="true">&nbsp;</i></p>
```

2. Type " " between the ">" and the "</i>"

***Note:** We type in between the i tags because OU Campus doesn't recognize the i tags and will try to delete them once you are in the editor. If you add the (which is code for adding a space) then it will accept the code.

Step 4- Finished

Test for Adding Icons

Lets Add an Icon

Wahoo!

This page is meant to help people learn how to add an icon to their pages. Hopefully this tutorial is easy enough so you will be able to put in icons wherever you want, all on your own! Here is just more text to make the page look a little

BROWSE AGRABILITY

Home

Services

Assistive Technology

Resources

1. Now Save and Publish. You are all Done!

Step 5- Extra Information

fa fa-reddit-alien fa-lg

fa fa-reddit-alien fa-2x

fa fa-reddit-alien fa-3x

fa fa-reddit-alien fa-4x

fa fa-reddit-alien fa-5x

1. You can change the size of the icon by altering the code. An example would be to change this code:

```
<i class="fa fa-reddit-alien">&nbsp;</i>
```

to this code:

```
<i class="fa fa-reddit-alien fa-2x">&nbsp;</i>
```
