

ALL ABOUT BEES

a workshop for anyone who wants to learn
about our most important pollinators

Wednesday, August 22, 2012

2 - 6 p.m.

Kaysville Education Center

80 East Sego Lily Drive

You will learn about:

- Bees, their biology, and their social systems - Not all of them live in hives and make honey!
- Pollinator conservation - Your landscape really matters!
- How to get started with honey beekeeping - It's easier than you think!

Pre-registration is required. **Register at <http://allaboutbees.eventbrite.com/>.**

Admission fee is \$10. Refreshments will be served.

For more information, contact Cory Stanley at cory.stanley@usu.edu or 801-388-5433.

Utah State University is an affirmative action/equal opportunity institution.
