\*Community Eligibility Provision (CEP)-Students are reported using a USDA formula from information obtained during the base year (1st year of implementation).

Free and reduced meal applications are not collected to determine individual eligibility determinations in a non-base year. A free and paid percentage is applied to total enrollment.

\*\*Provision 2-One of three alternate provisions to make annual student eligibility determinations for free or reduced price meals. A percentage of free, reduced price, and paid eligible students are determined during the base year (1st year of implementation). During the non-base years a free, reduced price, and paid eligible percentage is applied to total enrollment.

†Head Starts are Other Source Categorical Eligible Programs. Children who participate are automatically eligible for free benefits.

Information on the report was reported by the School Food Authority (SFA). Please contact either the LEA or Utah State Child Nutrition Programs at 801-538-7680 with any questions about this report. Data differences, in comparison to prior years, may be due to the impact of COVID-19 operations at the local level and the number of households that applied for school meals in SY2022.
