Importance of Family Meals

There are few greater investments parents can make in their family than sitting down together and sharing a meal. Let's bring back this lost tradition to Utah homes and reap all the known benefits:

Children who participate in consistent family mealtime:

- Eat an overall healthier diet.
- Consume more fruits and vegetables.
- Maintain healthy body weights.
- Perform better academically.
- Develop larger vocabularies.

These same children are also less likely to:

- Engage in risky behaviors, including tobacco, drug, and alcohol use.
- Struggle with disordered eating.
- Experience depression or low self-esteem.

Parents who engage in family mealtime:

- Have overall healthier diets.
- Enjoy strengthened family bonds.
- Spend less money on food by eating at home more frequently.
- Model healthy eating habits.

While some of the benefits of family meals are more significant for families who eat three or more meals together weekly, adding just one mealtime to your routine is a great place to start (Hammons & Fiese, 2011). Remember, family mealtime is not only for dinner—it can be whichever meal works best for your family schedule.

Hammons, A. J., & Fiese, B.H., (2011). Is frequency of shared meals related to the nutritional health of children and adolescents? Pediatrics, 127(6).

Tips for Successful Family Meals

Follow these helpful tips to make family mealtime more realistic and enjoyable:

- Plan meals ahead of time.
- Schedule a set time for meals.
- Involve all family members in the meal planning, preparation, and cleanup.
- Unplug your dinner—no television, phones, or other devices allowed!
- Keep conversation at family meals positive.

Meal Planning 101

A key to successful family mealtime is planning. Research shows that cooking at home is significantly more likely if you already know what you will have for dinner.

- 1 Set aside time each week for menu planning. The amount of time you need will decrease as you gain experience.
- 2 Ask your family for ideas of what they would like to eat during the week.
- 3 Plan your menu around food items you already have in the pantry.
- 4 Choose a variety of meals including family favorites, budget stretchers, and quick-fix meals.
- 5 Cook once, eat twice.
- 6 Plan to use your leftovers.
- 7 Picture the U.S. Department of Agriculture's (USDA's) MyPlate as you plan each meal. See page 36 for more details.
- 8 Have your local store ads available. Take advantage of those sales!
- 9 Create a thorough shopping list.
- 10 Keep it simple! Successful family meals don't have to be gourmet; they just have to be a time together.

QUICK TIPS

Tired of planning a menu every week?

Try planning a 2-4 week cycle menu. Choose meals for 2-4 weeks and then repeat once the cycle is over. Change cycle menus with the seasons to take advantage of local produce.

Bored of the same old meals?

Add some theme nights to your week. Taco Tuesdays, Breakfast for Dinner Thursdays, or Sandwich Saturdays are fun for the whole family. Let kids choose a theme and then make some table decorations for added entertainment.

How to Get Kids Involved

INVOLVING CHILDREN in meal planning and cooking at a young age is a great way to instill a love for delicious, homemade food! Here are some ideas on how to include kids of all ages in the kitchen. Remember to choose age appropriate jobs and keep safety in mind at all times.

AGES 2-5

AGES 6-10

AGES 11-18

Meal Planning

- Color coordinate fruits and vegetables.
- Circle foods they would like in the store advertisements.
- Help cut coupons.
- Choose one meal they would like.
- Help make a list of meals they like.
- Look at USDA's MyPlate diagram and come up with one meal following the diagram.
- Choose fruits and vegetables to put on the side of the main courses.
- Look up three new recipes on social media.
- Create a 3-day menu using USDA's MyPlate as a reference for a complete meal.

Grocery Shopping

- Point out fruits and vegetables from the grocery list.
- Choose a new fruit or vegetable to try.
- Read the list to a parent and cross the items off as they are put in the cart.
- Choose a new fruit or vegetable to try.
- Take a portion of the list and retrieve those items.
- If old enough to drive, do a small grocery trip on their own.
- Keep track of the money saved each week.

Cooking

- Pour premeasured items into a bowl to mix up.
- Tear up lettuce for a salad.
- Rinse off fruits and vegetables.
- Measure ingredients and put them together with parent's help.
- Toss a salad.
- Knead dough.
- Put sandwiches together.
- Run the show as head chef! Put together a full meal and recruit family members to help as needed.

CREATE BETTER HEALTH TESTIMONIALS

"During a Create Better Health class series at a local high school, the teacher of the students shared that she had followed the meal plan and grocery shopping tips we taught. At the end of her two-week meal plan, she had \$200 left over from her normal grocery budget. This was an impactful experience for her and great for her students to see the benefits of applying the CBH curriculum into their lives."

Davis County ambassador

"Since last week the kids all cook with me. They insist on it. I have made things they normally don't eat, but when we do it together they clean their plate....Thank you for hosting such a great class!"

Class participant

"I usually don't eat in the morning, and if I do eat something it's something like a donut. I am going to make a parfait or smoothie now each day and see how much better I feel!"
