Eat Well Utah Newsletter Contest Winner for October- Jocelin

Drum roll please.....

Congratulations to Erin Larsen in Utah County. She is the winner of our October contest. Thank you for everyone who sent me email addresses! Just as a reminder I need the email addresses in an excel file where the first column is last name, first name, the second column is the email address, and the third column is the county. Our November contest starts now! Good luck to you all.
Candi Merritt (candi.merritt@usu.edu)

Granting Permission in PEARS - Kim

If you want to share a program activity with a fellow NEA, you can do this in PEARS. By going to your name on the home page, then clicking "manage account," then choosing "permissions," then add your user and click save.

Sending Paperwork to the State Office - Kim

Hannah, a state office intern, will be checking the incoming rolls and class participant forms against PEARS. So just be aware that that will be happening. This will help us catch any potential errors and ensure that our numbers are accurate.

Create Better Health Lesson Eight Recipe Options - Casey

For lesson eight...You can choose between Create a Fruity Dessert, or any other recipe that doesn't fit into the lessons. For example, you can teach how to create chicken nuggets.

PSE Meetings - Casey

NEAs who are implementing PSE strategies from the PSE Pick List (i.e. Thumbs Up in food pantries, retail settings, community garden work, etc.) are required to participate in a couple of trainings throughout the year. The first meetings are currently being held. Watch your email for dates and invitations to the zoom meeting. If you miss a meeting, they are available on the staff website under "trainings," "monthly in-service," this will lead you to our YouTube channel where you can find these trainings. Please note that you will only be receiving invitations to these meetings if you completed the PSE survey

that was sent out several times earlier this month. If you missed this survey but plan on doing some PSE efforts, please let Casey know and she will include you on the meeting invitations.

Let Casey know if you have any questions about PSE this year!

Missing Handouts in Create Better Health - Casey

There are some recommended handouts throughout the new curriculum that we are still working on. You'll receive an update when they're ready. This includes:

Lesson 5: Food Safety Handout

Lesson 7: Sugar Handout

The handout, *Be Active Adults*, for Lesson 8 is now available to order from the staff order form!
