### Announcements

**Casey - Double Up Food Bucks**

For counties that have Double Up Food Bucks at their Farmer’s Market, please use the link below to order promotional materials and handouts from Utahns Against Hunger. If you have questions about whether your county is included in this program, please contact the State Office.

**Jocelin - Using Blog Resources**

This is a reminder that we have four Food $ense Online NEAs who are creating indirect education specific for the SNAP-Ed audience. If you are interested in, or are currently managing, a County Facebook page, please remember to repost what our Online NEAs are creating. It makes your job easier to re-use their materials and increases their reach. They can be found here:

**County Sharing**

**Emery**

Participants all received hamburger patties for their cooking class the other night. Many of the participants were disappointed with how small the patties were. After combining all of the hamburger, we made a taco salad. It astonished the participants that you could stretch the use of hamburger so far and get so much out of it. This was part of our effort to try and get participants past relying on a recipe and being more creative.
