

Performing a Needs Assessment

Take a moment to ponder and discuss the following questions.

1. How do we complete a needs assessment in our county?
2. What interviews do we need to conduct?
3. Do we want to create sub-committees?
4. How can our team create the necessary documents together?
5. How does a facilitator help us achieve our goals?
6. What other questions do you need to address as a team?
