

My name is Jenna Garrett. I was born and raised in Nephi and graduated from Juab High School in 2025. I am excited to be the new summer Ag intern for Juab County Extension.

I have been very involved in agriculture my whole life, growing up on our family farm. I have also loved being involved in 4-H from a young age, attending activities like Summer in the Park and taking cooking classes. When I turned 8, I got my first show steer and continued showing until I graduated.

Later, I learned about the many opportunities 4-H could offer me, including joining the 4-H Livestock Evaluation and Livestock Bowl teams. I was able to attend State 4-H Contests and compete in the livestock bowl contest, where our team placed first and went on to compete at the National 4-H Competition.

I look forward to spending this summer becoming more involved in our community!
