

Juab Community Garden

The Juab Community garden provides an opportunity for residents who don't have adequate space to grow a garden. The community garden has 20 plots that are 40 square feet each. The plots are filled on a first -come, first served-served basis. There is a \$25 registration fee that goes to maintain the garden. A refund will be given when inside the box, around the box, to the center of the garden and to the fence are cleaned up and all weeds are hauled off. When the fee is paid, you will be given a code that will give you access to the garden.

If you need help, contact the office at 435-623-3450.

The garden will be fertilized, tilled, and ready to plant. There is a watering system for each box. All tools that are needed are in the shed in the garden.

To register, you can come to the USU Extension Office at 160 North Main, Nephi, Utah. To receive an electronic application email, us at juabextension@usu.edu. The Guidelines and Policies can be found at <https://extension.usu.edu/juab/>. Go to the gardening tab or call 435-623-3450 for more information.
