# Upcoming April Webinars

## **Pesticide Rules and Law for all Applicators, with a Focus on Private (Agriculture)**

This one-hour webinar will discuss how the rules and laws apply to the Private applicator license, including the Worker Protection Standard program. Although the Private applicator license is for those that make pesticide applications on agricultural establishments, any applicator license type of any category is eligible to receive one Law CEU credit for this webinar.

- Drew Matthews, Thursday, April 15, 12 PM MDT ([Click Here to Register](#))

## **Urban Mammalian Pest Identification and Management**

Learn to identify common mammalian urban pests such as rats, mice, voles, and squirrels. You will hear about why these mammals like your property, how to identify the culprit from the damage left behind, and basic strategies to avoid common pest damage issues.

- Dr. Nicki Frey, Tuesday, April 29, 12 PM MDT ([Click Here to Register](#))
