

First Detector Workshop

EXTENSION 
UtahStateUniversity

**Friday
September 27
9AM–3PM**

**USU Kaysville
Botanical Center**

80 East Sego Lily Dr.
Kaysville, UT 84037

Join USU Extension and the Utah Plant Pest Diagnostic Lab (UPPDL) at the Botanical Center in Kaysville for a day of First Detector Training. First Detector Training is a national program that trains citizens to recognize and report new invasive pests that attack our agricultural and natural resources. Speakers will include Dr. Whitney Cranshaw of Colorado State University and author of *Garden Insects of North America*, Joey Caputo of Utah Department of Agriculture and Food, Dawn Holzer of USDA APHIS PPQ, and Dr. Lori Spears and Ryan Davis of the UPPDL.
