

# Webinar Announcement

Hello all.

Attached is a flyer with a link to registration and agendas for each of the eight 2025 USU PSEP CEU webinars occurring this fall and an announcement to share. Thanks to the support of our partners, these webinars are once again FREE! With a CEU costing ~\$20, each webinar is a \$60+ value to applicators. Please share the attached flyer and announcement far and wide to help USU PSEP and our partners reach those needing CEUs.

**Registration is open!**

**So again, please share this announcement as soon as possible.**

Thank you.

Feel free to use the language below in any emails you send out to your colleagues or customers.

**How can I get ... Where do I get ... Are there other options for CEUs?**

These are some of the most common questions I receive, especially in the late fall. So, I just wanted to take a minute to let you know where you can find numerous options for CEUs. Formats available include face-to-face, webinars (virtual), and online course modules.

*Did you know? A Red Cross class in First Aid, CPR, and AED are acceptable as safety CEUs.*

This link will take you to the USU Pesticide CEU modules. <https://extensioncourses.usu.edu/product-category/utah-pesticide-ceus/>  
This link will take you to UDAF's CEU page. <https://ag.utah.gov/farmers/plants-industry/pesticides/pesticide-continuing-education/>

**I would suggest bookmarking these pages.**

On the UDAF page, you will find many things, but a few associated with this email are ...

1. A calendar that shows upcoming UDAF-approved CEU opportunities.
2. CEU requirements by license type.
3. A list of "Online Continuing Education Units" options. Some of these options are free, and others come with a cost.
4. Red Cross Classes
