

Be a Soaper Hero!

Make sure you use soap to scrub away those germs!

Don't scrub hands under the stream of water or it will rinse all the soap down the drain & not do it's job cleaning your hands!

Remember to start washing your hands by wetting your hands with warm water, then add soap.

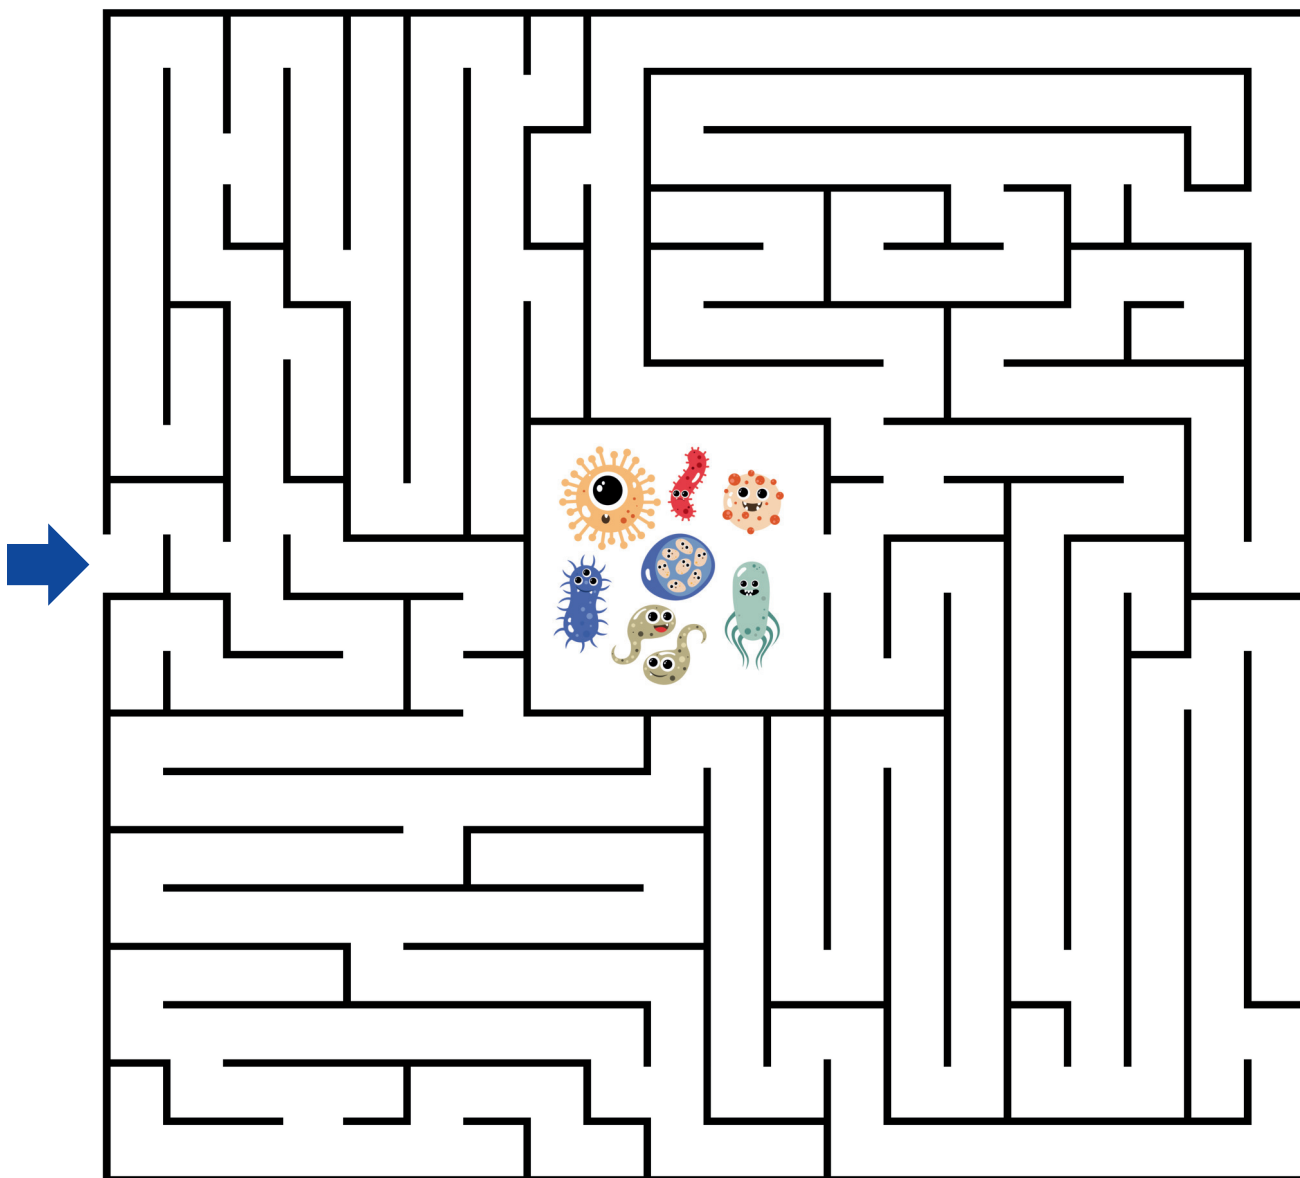

After scrubbing for 20 seconds - rinse soap off using warm water!

Don't forget to dry your hands after washing!

It's an important step because germs like warm & wet places so make sure your hands are nice & dry.

Fight your way through the maze to help the Soaper Heroes knock out germs!
