2021 TOOELE COUNTY JUNIOR LIVESTOCK SHOW & SALE

PRESIDENTS MESSAGE

Dear Tooele County Junior Livestock Show Exhibitors and Families:

Welcome to the Tooele County Junior Livestock Show & Sale. We are excited for another year and look forward to seeing you as you prepare for the upcoming show. We had an additional 100 buyers register last year and saw the sale exceed \$275,000. This would not be possible without the support of businesses and individuals investing in this organization and the youth of Tooele County. I hope each exhibitor takes the time to thank the buyers who contribute financially to making this all possible.

We are grateful to all those who continue to volunteer their time and resources to make each year a success. We look forward to seeing new faces and old friends. We are grateful for the countless hours parents, family members, leaders, and others contribute to the success of each exhibitor and the show as a whole.

As each of you exhibitors prepare for the show, I hope you will take the time to reflect on your experience of raising and marketing livestock. This is a great learning opportunity, and I encourage you to take the time to thank those around you who support you; your family, friends, 4-H Leaders, Extension Agent, and FFA Advisors

We as a board are excited to see each of you again this year August 4th-7th, at the show and wish each exhibitor good luck!

Sincerely,

Robert Pitt, President

GENERAL RULES

Ownership of animals: The exhibitor will own, feed, and care for his/her project animal(s) for not less than 100 consecutive days for market steers and 60 consecutive days for market swine, lambs, and goats prior to the Tooele County Livestock Show. No interruption of ownership can occur. All exhibitors must have viable proof of ownership available; showing the length of time they have owned the animal. The official ownership date is the date shown on the bill of sale, unless the animal was bred by the exhibitor, in which case calving or birth records must be shown.

The livestock project animals must be located in the same county as the exhibitor during the required ownership period unless the individual qualifies for an exemption under rules for exhibitor eligibility.

All participants are required to participate in both showmanship and market classes.

Each exhibitor will be limited to two (2) animals.

No exhibitor will be allowed to show an animal if he/she cannot control the animal in the show or auction ring. Older assistance will be permitted. The ring officials will make this determination.

Where a registered exhibitor has more than one animal in any market class, the other animal not shown by that exhibitor must be shown by another registered exhibitor.

Anyone not registered to show a market animal is prohibited from showing an animal in any market or showmanship class.

No animal receiving Grand or Reserve Champion at another show; in any species will be allowed into the Tooele County Livestock Show and Sale.

All Grand and Reserve Champion animals will be tattooed CH in the left ear at the conclusion of the market classes.

Promptness: Failure of exhibitor to be on time and meet the gate call for assigned class in show or position in sale will be disqualified from showing and selling that animal. Animals will not sell if not lined up in sale order.

All pens and stalls must be cleaned by the exhibitor before leaving the show grounds.

Identification signs must be displayed on each pen or stall showing ownership.

For security purposes, the doors of the arena will be locked at 10 pm and no entry will be available until the next morning.

The only people allowed in the show ring are the judges, the exhibitors, and authorized show officials.

Any animal not fitted, cleaned, or cattle not broke to lead shall be sifted by the committee; and the judge will award no premium to such animals.

Exhibitors removing animals prior to 7:00 PM on Friday without permission of the species chair will forfeit their prize money.

The decision of the show management will be final.

RULE ENFORCEMENT

The local show has the responsibility to enforce the rules and regulations at this show.

All rules will be strictly enforced. Any violation of the rules may result in premium money being forfeited and/or the exhibit being sifted or dropped from the show and sale order.

Direct criticism or interference with the judge, show management, other exhibitors; breed representatives, or show officials before, during, or after the competitive event is prohibited. This includes final decisions of the show veterinarian. Violators will be dealt with on a case by case basis by show officials.

FEED AND SUPPLIES

All feed, feeding equipment, bedding, etc. must be supplied by the individual exhibitors.

Wood shavings will not be provided for purchase at the fair, exhibitors will need to bring their own.

ANIMAL HEALTH RULES and CODE OF ETHICS

The use of any drug, tranquilizer, sedative or depressant which alters the psychological or physiological state of the animal is illegal. Exceptions to this rule would be licensed, certified veterinarians, treatment for a recognized disease or injury, or recommendation for tranquilizing breeding animals in heat that might compromise the safety of others. The drugs must be approved by the Food and Drug Administration for use in meat producing animals. All exhibitors will advise show management of any drug and/or medication administered to an animal that might be detected at the time of showing or at meat inspection. The name of the drug, its purpose, the person who administered the drug, time, and date of administration will be presented to show management prior to the showing and sale of the animal. Failure to report this information will result in severe penalty and/or disqualification. Any use of drugs or substances not approved by the Food and Drug Administration is strictly prohibited. All animals entered into livestock competition will be subject to testing for foreign substances that exceed acceptable levels established by the FDA, FSIS, USDA, or the EPA. During the livestock event in the case of an animal requiring treatment all medications shall be administered by a licensed veterinarian and the livestock show officials shall be notified. Use of an illegal drug is considered a premeditated act and any information obtained in the practice of illegal alteration of any animal will be turned over to the proper authorities for possible criminal prosecution.

Surgery, injection or insertion of foreign material under the skin and/or into the flesh of an animal to change the natural contour, conformation or appearance of animal's body is illegal. This includes vegetable oil, silicon or other substance used to alter an animal's shape. Acceptable practices of physical preparations which are allowed include: clipping of hair, trimming of hooves, dehorning or removal of ancillary teats.

Treating an animal internally or externally with any irritant, counterirritant or other substance used to artificially change the conformation or appearance of an animal for show is considered unethical, inhumane and is prohibited. This includes, but is not limited to, the use of graphite, powders, hemp, artificial hair, coloring, common products such as fly spray, ointment or liniment used to the point that it is irritating, or similar type products. The use of dyes, spray paint or other artificial coloring which result in altering an animal's true and natural appearance and/or color is prohibited. Adding false hair or hair like material, fleece, or skin at any point, spot or area of the animal's body is illegal and will result in immediate disqualification. Any liquid or substance not considered part of an accepted and normal diet for livestock is deemed illegal and inhumane. For example: the use of alcoholic or carbonated beverages as a drench or filler, etc. Drenching will not be allowed unless the show veterinarian or a show official is present and is needed for emergency purposes only.

The use of inhumane fitting, showing and/or handling practices or devices shall not be tolerated. For example: breaking tails, striking of the animal to cause swelling or for bracing purposes, use of an electrical contrivance, muzzles, etc. is not acceptable.

Direct criticism or interference with the judge, show management, other exhibitors, breed representatives or show officials before, during or after the competitive event is prohibited.

At the time an animal is sold at auction at the livestock show the exhibitor shall be held directly responsible for animals that are rejected at the processing center for any reason. The seller may be liable to the buyer for an amount equal to three times the purchase price and may also be liable for attorney's fees and civil penalties.

Show management may share acceptable intelligence and evidence information with FDA or USDA. If, for any reason, FDA or USDA inspectors must remove any part of a meat animal carcass, the market price will be discounted.

Show management reserves the right to require animal health certificates. Health inspection and diagnostic tests may be made before or after animals are on the livestock show premises for exhibitor and animal safety, or to inaugurate disease control procedures which may become necessary in emergencies as determined by animal health officials.

Drug Withdrawal:

It is unethical and, in most cases, even unlawful to administer drugs to livestock within 20 to 30 days of slaughter. Animals too unmanageable to show should be withdrawn from their class rather than be tranquilized. The local show committee and the show veterinarian will monitor the situation. By federal regulation, random testing will occur at slaughter, and animals will be condemned which have been given any injection or oral dosage of tranquilizers, painkillers, antibiotics, diuretics, steroids, or other foreign

substances during withdrawal periods before slaughter. All sales money will be withheld in such cases. Bloat medicine and other medication with no withdrawal requirements may be permissible. Exhibitors need to be aware of potential health hazards to consumers who eat animals that have received any above-mentioned substances. Please do not put someone's life in jeopardy.

Drug Testing:

The Tooele County Junior Livestock Show and Sale Committee reserve the right to drug test any animal at any time. The show and sale have a Zero Tolerance Policy for any drug use. Any positive drug test is a violation of the "Tooele County Junior Livestock Show and Sale Code of Ethics" and will result in disqualification and forfeiture of premiums, awards and sales money, and may result in probationary status and/or loss of eligibility for future participation in organized livestock competition.

LIABILITY

All entries are accepted with the understanding that neither sponsors nor officers shall be held responsible for any loss or damage that should arise to livestock or exhibitor. Each exhibitor shall be responsible for any loss or damage done by his/her animal to any other animal or property and will indemnify the sponsors and officers against all legal and other proceedings thereto.

AUCTION RULES

Grand Champion and Reserve Champion beef, lambs, goats, and hogs must be sold.

At the time an animal is sold at auction the exhibitor shall be held directly responsible for animals that are rejected at a processing center due to the presence of foreign residues. The seller may be liable to the buyer for an amount equal to three times the purchase price and may also be liable for attorney's fees and civil penalties.

If an animal is rejected by the floor buyer or condemned at slaughter for a reason other than the presence of foreign residues, exhibitor will be disqualified from sale or forfeit all money.

Buyers with delinquent accounts will not be allowed to purchase or boost until the full amount owed is paid.

Payment from buyers will only be accepted after an official invoice has been issued.

Payment must be in the form of a check.

Withdrawal of an animal from the sale must occur within one hour after the conclusion of the respective market show, and prize money and ribbon must be forfeited.

Owners must weigh, fit, show, and sell their own animals in the ring. Exceptions are made only in the case of a medical emergency documented with a doctor's note **AND** with the advanced approval of the executive stock show committee.

Sales Fee: There will be a 3% commission charged on all animals sold.

Ownership is assumed at the time of the sale.

All sales are final. No animals can be resold to another person by paying the premium. Once the sale is declared by the auctioneer, the sale is final, changes in buyer information will not be allowed.

Floor animals will not be resold or redirected once they are declared in the sale ring.

The only boosting that will be allowed outside of the sale will be donations to the general fund to be distributed to exhibitors at the discretion of the sales committee. All other boosts **MUST** be through the sale. A bidder number must be obtained by each booster. The booster's bidder number must be the winning bid or with the collective group forming the winning bid. Boosts for specific exhibitors outside of the sale will no longer be allowed.
