WORLD OF WORK  
INTERVIEW CONTEST

UTAH 4-H

### About the Role

We are seeking a compassionate and detail-oriented Entry-Level Veterinary Technician to join our team. In this role, you will support veterinarians in providing high-quality care to animals, assist with medical procedures, and help ensure a safe and comfortable environment for both patients and their owners. This is an excellent opportunity for recent graduates or individuals beginning their careers in veterinary medicine.

### Key Responsibilities

- Assist veterinarians during examinations, treatments, and surgical procedures
- Prepare animals for surgery and monitor them during recovery
- Administer medications, vaccines, and treatments as directed
- Collect and process laboratory samples (blood, urine, etc.)
- Maintain accurate patient records and documentation
- Clean, sterilize, and maintain medical equipment and exam rooms
- Provide basic animal care including feeding, bathing, and restraint
- Educate pet owners on proper animal care and post-treatment instructions

### Required Qualifications

- Associate's degree in Veterinary Technology or completion of an accredited veterinary technician program (or equivalent experience where applicable)
- Basic knowledge of animal health, anatomy, and handling techniques
- Strong attention to detail and organizational skills
- Ability to handle animals safely and compassionately
- Good communication and teamwork skills

### Preferred Qualifications

- Veterinary Technician certification/licensure (CVT, LVT, or RVT, depending on state requirements)
- Internship or clinical experience in a veterinary setting
- Familiarity with veterinary software systems
- Experience with laboratory procedures and diagnostic equipment

### What We Offer

- Competitive pay and benefits (if applicable)
- Hands-on training and mentorship opportunities
- Supportive and team-oriented work environment
- Opportunities for professional growth and certification

\*Contestants may assume they have met the qualifications highlighted in green when preparing their application materials. All other components should be based on their actual experiences and skills.
