

# 4-H Silhouette Stand Plans

# Materials needed: Coming Soon

# Metal Stand Length 71 ½ inches / 2" angle Iron

# Stand Height 48 inches

Middle Cross bar Height 24 inches / under each crossbar weld a deflection bar as in right picture to deflect bullets down.

Attachment bolt and wingnut 12 inches from middle bar. Bolt, nut, wingnut 3/8 or 1/2 inch.

Stands Support Foot: 4' long / Flat iron 2 holes offset  $\frac{3}{4}$  of an inch as seen in right picture.

Extend foot bar to middle wingnut and attach. Both sides this picture only has one foot attached. Stand is adjustable if ground is not level. The vertical bar just sits on the horizontal foot so it can be adjusted.
