5:00: Co Chairs: Commissioner Adams and Ken Spackman welcomed group and made introductions.

Jeff Schick of the NRCS gave a background how the CRMP got started, where funding was obtained with help from former Senator Bennett. Jeff explained that diverse land management entities require active coordination. This rural, natural resourced-based community covering 1.5 million acres needs a plan to focus efforts.

Neal Artz, one of our consultants from Cirrus and Logan Simpson Design gave and overview of the CRMP process and recommendation on a power point presentation that can be found on our link

A discussion of concerns and other comments about the plan lead by Chairman Ken Spackman .

Commissioner Adams called for the Voting members to vote for adoption of the plan. 16 out of 19 voting members were present. It was passed unanimously.

Bracken Henderson fro the West Box Elder Conservation District discussed the importance of moving on and getting involved to make the difference. He encouraged all attending to sign up to help on seven different sub committees. Those being:
- Programmatic Pinyon/Juniper Control
- Reservoir Feasibility Analysis
- Winter Rangeland Improvement
- Coordinated Weed Management
- Other "Special-Status Species" Wildlife
- Community and Economic Development
- Increase Commerce by Improving Communication and Information Sharing Among Residents
