Attendees for the Boreal Toad tour: Clint Hill, Masako Wright, Clayton White, Bruce Sillitoe, Pam Kramer, Matt Westover, Paul Thompson, Traci Allen, Diane Tanner

6:00 Paul Thompson presented Species in the West Box Elder area that are being worked with to keep from being listed. State employees lose control over the species if it becomes endangered. We need to work cooperatively to keep from being listed. Presentation will be listed on our website.

Neal Artz went over the priorities with the attendees that had multiple votes on the survey. The group discussed those priorities as to which were the most feasible on Water Resources. It was obvious that more time will be needed to select the most viable priorities in the other three area which are covered in our CRMP. We decided to postpone the presentation to the public until all of the areas had been discussed and narrowed down to an obtainable goal to start with.
