

SWARM MEETINGS

Attendance

Curtis Roundy, Clint Wirick, Nicki Frey

Updates

- Curtis and Nicki recapped the NR Days held in Alton in mid-May.
 - NRCS Upper Long Hollow allotment; PJ treatment, reseeding, water treatments
 - The Halls project on Spanish George will continue with chaining this fall. Just chain on the east side of the fence and reseed and then do the west of the fence next year.
 - Parowan Gap lop and scatter will conclude after July
 - Nicki provided update on Utah's grouse action plans; CBCP plans to make Utah vegetation recommendations based on statewide research.
 - Steve Zanoni is new grad student. Looking at movement and use of treated area. Following the hens.
-

Field Tour

Waiting to tie into the WRI field tour. Probably in August.

Ideas: TNC Buttercup Preserve just outside Panguitch, Dog Valley, Buckskin, Beaver River just below Minersville/Greenville Bench

Future Meetings

Quarterly rather than every other month. Eliminate August and October. Chose a September date, September 6th. December date stays the same.
